Operations Management Alison Bettley, David Mayle, Tarek Tantoush, 2005-11-18 This reader is an outstanding piece of work. It captures the essence of operations management by providing an interesting and sometimes provoking set of readings. It also provides an excellent review of the topic. Its approach to operations management is both topical and comprehensive. The editors have done an outstanding job of including many of the significant recent developments in the area, particularly in the technology and operations strategy areas. Nigel Slack, Professor of Operations Strategy, Warwick University. How have consumer demands, environmental and ethical concerns, the advancement of technology and the globalization of business changed and redefined operations management? This Reader explains new and emerging areas and re-evaluates some important mainstream issues. Leading specialists contribute their experiences and thoughts on four key areas. They are: Strategy makes the case for regarding operations as a strategic asset in their own right. Methodology examines the myriad of approaches taken towards process improvement. Technology asks why problems associated with the implementation of technology continue to dog organisations. Human Issues repositions human input to the top of the operational agenda.

Economics And Management Of Competitive Strategy Daniel F. Spulber, 2009-06-15 This book provides a comprehensive and integrated approach to management strategy that is based on economics. A basic introductory strategy text that integrates economic analysis with management strategy. It takes into account global competition and high-tech Internet developments and recognizes that companies today can no longer expect to sustain competitive advantage but must rely on innovation of products, processes and transactions. Although many of the principles are illustrated with numerical examples, the text does not require a background course in economics or mathematics and does not contain technical graphs or equations. Thus the book is suitable for undergraduate managerial economics and strategy courses as well as for introductory MBA courses in business strategy and as a companion to case studies. *Services Marketing and Management* Balaji B., 2002 Concept Of Service, Service Characteristics, Service Expectations, The Service Product, Service Location, Pricing For Services, Promotion Services, The Service Process, Physical Evidence, People And Services, Internal Versus External Marketing.
