Adam Hanieh

Grade 1memo Geography 2014:

Taken For A Ride Matteo Rizzo, 2017-05-19 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam's public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world Taken for a Ride addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system's journey from public to private provision This new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights A longitudinal study of workers throws light on patterns of occupational mobility in the sector and the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it are analysed Taken for a Ride reveals the political economy of public transport exposing the limitations of market fundamentalist and post colonial scholarship on economic informality the urban experience in developing countries and the failure to locate the agency of the urban poor within their economic and political structures It is both a contribution and a call for the contextualised study of actually existing neoliberalism **Sold Out** Michelle Malkin, John

Miano, 2015-11-10 The 1 New York Times bestselling author and firebrand syndicated columnist Michelle Malkin sets her sights on the corrupt businessmen politicians and lobbyists flooding our borders and selling out America's best and brightest workers In Sold Out Michelle Malkin and John Miano name names and expose the lies of those who pretend to champion the middle class while aiding and abetting massive layoffs of highly skilled American workers in favor of cheap foreign labor Malkin and Miano will explode some of the most commonly told myths spread in the media like these Lie 1 America is suffering from an apocalyptic shortage of science technology engineering and math workers Lie 2 US companies cannot function without an unlimited injection of the highly skilled and highly educated foreign workers who offer capital and energy that American workers can't match Lie 3 America's best and brightest talents are protected because employers are required to demonstrate that they've made every effort to hire American citizens before resorting to foreign labor For too long open borders tech billionaires and their political enablers have escaped tough public scrutiny of their means and motives It's time to trade the whitewash for solvent American workers deserve better and the public deserves the unvarnished truth

Asymmetric Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is

often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics

2014 Annual Competitiveness

Analysis And Development Strategies For Indonesian Provinces Khee Giap Tan, Nurina Merdikawati, Mulya Amri, Blake Harley Berger, 2015-09-08 This book is a world class report by the Asia Competitiveness Institute updated annually to analyse Indonesia's competitiveness at the provincial level With 104 indicators covering four environments the study's unique methodology incorporates comparative strengths and weaknesses Apart from scores and rankings what if policy simulations offer various provinces practical prescriptions to improve overall competitiveness to accelerate economic growth and development in a balanced fair and sustainable way Such qualitative and quantitative analyses in collaboration with various stakeholders generate an exciting pathway for Indonesia to attain its rightful place in both the Asian region and global contexts

Money, Markets, and Monarchies Adam Hanieh, 2018-09-13 Framed by a critical analysis of global capitalism this book examines how the six states of the Gulf Cooperation Council are powerfully shaping the political economy of the wider Middle East Through unprecedented and fine grained empirical research encompassing sectors such as agribusiness real estate finance retail telecommunications and urban utilities Adam Hanieh lays out the pivotal role of the Gulf in the affairs of other Arab states This vital but little recognised feature of the Middle East's political economy is essential to understanding contemporary regional dynamics not least of which is the emergence of significant internal tensions within the Gulf itself Bringing fresh insights and a novel interdisciplinary approach to debates across political economy critical geography and Middle East studies this book fills an important gap in how we understand the region and its place in the global order

Raced Markets Lisa Tilley, Robbie Shilliam, 2021-05-30 Despite rich archives of work on race and the global economy most notably by scholars of colour and Global South intellectuals the discipline of Political Economy has largely

avoided an honest confrontation with how race works within the domains it studies not least within markets By way of corrective this book draws together scholarship on the material function of race at various scales in the global political economy The collective provocation of the contributors to this volume is that race has been integral to the formation of capitalism as extensively laid out by the racial capitalism literature and takes on new forms in the novel market spaces of neoliberalism The chapters within this volume also reinforce that the current political conjuncture marked by the ascension of neo fascist power cannot be defined by an exceptional intrusion of racism nor can its racism be dismissed as epiphenomenal Raced Markets will be of great value to scholars students and researchers interested in political economy and racial capitalism as well as those willing to explore how race takes on new forms in the novel market spaces of contemporary neoliberalism The chapters in this book were originally published as a special issue of the New Political Economy
