Outclassed Joan C. Williams, 2025-05-20 An eye opening urgent call to mend the broken relationship between college and non college grads of all races that is driving politics to the far right in the US Is there a single change that could simultaneously protect democracy spur progress on climate change enact sane gun policies and improve our response to the next pandemic Yes changing the class dynamics driving American politics The far right manipulates class anger to undercut progressive goals and liberals often inadvertently play into their hands In Outclassed Joan C Williams explains how to reverse that process by bridging the diploma divide while maintaining core progressive values She offers college educated Americans insights into how their values reflect their lives and their lives reflect their privilege With illuminating stories from the Portuguese admiral who led that country's COVID response to the lawyer who led the ACLU's gay marriage response and more Williams demonstrates how working class values reflect working class lives Then she explains how the far right connects culturally with the working class deftly manipulating racism and masculine anxieties to deflect attention from the ways far right policies produce the economic conditions disadvantaging the working class Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice Outclassed offers concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals

Corridors of Contagion Victoria Law, 2024-09-10 Tracing the narratives of five incarcerated individuals Sentenced to COVID speaks to the devastating impact of surviving the pandemic inside prison walls Corridors of Contagion brings to light the experiences of five people incarcerated across the United States as they navigate the onset of the pandemic and the many months stretched

into years that followed Journalist Victoria Law combines this storytelling with a trenchant analysis of the structural failures of the US carceral system failures that made prisons uniquely vulnerable to COVID 19 outbreaks from overcrowding to solitary confinement from insufficient healthcare to life sentences The book portrays the horrors of continual lockdowns not in the comfort of one s own home but in prisons where routine violence and chaos is made even more unimaginable by the complete lack of control over protection from a terrifying and lethal new virus The pandemic provided an opportunity for lawmakers and policy makers to rethink the nation s addiction to perpetual punishment Instead US jails and prisons doubled down on punishment under the guise of pandemic protections As a result people behind bars experienced increased stress mental health challenges increased violence and higher rates of deaths many of which could have been prevented While the pandemic emergency has been declared over we are continuing to learn more about the extent of its destruction Corridors of Contagion reminds readers about both the particular horrors experienced by people in cages and the continued role of the US as the world s prison nation
