Improving Primary Mathematics Education, Teaching and Learning Mellony Graven, Hamsa Venkat, 2017-01-19 This book focuses on how to improve the teaching and learning of primary level mathematics education within resource constrained contexts. It builds on two large numeracy projects within South Africa which speak to broader global concerns and highlight how research and development not only enables one to meet ethical imperatives but also explore how further interventions can be developed. Teacher and research communities must work together to create mutually beneficial relationships and establish a cohesive understanding of the requirements of primary mathematics education. Annual Report Mpumalanga (South Africa). Department of Education, 2014. Twenty four studies met the criteria for inclusion and analyses reveal four sets of instructional strategies for which there is evidence from multiple contexts. Of the 24 studies 16 involved the use of multiple representations 10 involved the use of developmental progressions 6 included supporting student use of explanation and justification and 5 included integration of informal mathematics. Based on the review we provide conclusions and recommendations for future research and policy. **The Economics of Education** Steve Bradley, Colin Green, 2020-01-20 The Economics of Education A Comprehensive Overview Second Edition offers a comprehensive and current overview of the field of that is broadly accessible economists researchers and students.
