Argumentative Writing in a Second Language Alan R. Hirvela, Diane Belcher, 2021-12-13 Argumentative Writing in a Second Language is a collection on teaching argumentative writing offering multiple vantage points drawn from the contributors own teaching and research experiences The value of learning how to compose argumentative texts cannot be overstated and yet very little attention has been allocated to the equally important topic of how argumentation is or can be taught in the L2 context Thus this volume shifts attention to teachers and argumentative writing instruction especially within increasingly common multimodal and digital literacy settings While doing so it provides a comprehensive wide ranging view of the L2 argumentative writing landscape within an instructional lens Part I of the volume is topic oriented and focuses on explorations of important issues and perspectives while Part II features several chapters reporting classroom based studies of a variety of instructional approaches that expand our understanding of how argumentative writing can be taught The book will be of value to pre service and in service teachers in varying instructional contexts as well as teacher educators and L2 writing scholars researchers

Designing Assessment for Quality Learning Claire Wyatt-Smith, Valentina Klenowski, Peta Colbert, 2014-03-10 This book brings together internationally recognised scholars with an interest in how to use the power of assessment to improve student learning and to engage with accountability priorities at both national and global levels It includes distinguished writers who have worked together for some two decades to shift the assessment paradigm from a dominant focus on assessment as measurement towards assessment as central to efforts to improve learning These writers have worked with the teaching profession and in so doing have researched and generated key insights into different ways of understanding assessment and its relationship to learning The volume contributes to the theorising of assessment in contexts characterised by heightened accountability requirements and constant change The book s structure and content reflect already significant and growing international interest in assessment as contextualised practice as well as theories of learning and teaching that underpin and drive particular assessment approaches Learning theories and practices assessment literacies teachers responsibilities in assessment the role of leadership and assessment futures are the organisers within the book s structure and content The contributors to this book have in common the view that quality assessment and quality learning and teaching are integrally related Another shared view is that the alignment of assessment with curriculum teaching and learning is linchpin to efforts to improve both learning opportunities and outcomes for all Essentially the book presents new perspectives on the enabling power of assessment In so doing the writers recognise that validity and reliability the traditional canons of assessment remain foundational and therefore necessary However they are not of themselves sufficient for quality education The book argues that assessment needs to be radically reconsidered in the context of unprecedented societal change Increasingly communities are segregating more by wealth with clear signs of social political economic and environmental instability These changes raise important

issues relating to ethics and equity taken to be core dimensions in enabling the power of assessment to contribute to quality learning for all This book offers readers new knowledge about how assessment can be used to re engage learners across all phases of education

Taming the Vernacular Jenny Cheshire, Dieter Stein, 2014-09-25 *Taming the Vernacular From Dialect to Written Standard Language* examines the differences between standard and nonstandard varieties of several different languages Not only are some of the best known languages of Europe represented here but also some that have been less well researched in the past The chapters address the syntax of Dutch English French Finnish Galician German and Spanish For these languages and many others it is the standard varieties on which the most extensive syntactic research has been carried out with the result that very little is known about the syntax of their dialects or the spoken colloquial varieties The editors of this volume seek to redress the balance by taking a cross linguistic perspective on the historical development of the standardised varieties This allows them to identify some common characteristics of spoken language It also helps the reader to understand the kinds of filtering processes that are involved in standardization which result in the syntax of spoken colloquial language being different from the syntax of the standard varieties *Taming the Vernacular From Dialect to Written Standard Language* is suitable for undergraduate and postgraduate students of Linguistics particularly those taking courses in sociolinguistics dialectology and historical linguistics The focus on a variety of languages also makes this text suitable for students studying courses which cover the linguistic aspects of European languages
