The Regulation of Financial Planning in Australia

Angelique Nadia Sweetman McInnes,2019-08-20 This book investigates the legitimacy of the current Australian Financial Services Licensee Authorised Representative AFSL AR licensing model as specified in the Commonwealth Corporations Act 2001 The book rectifies the deficiency in scholarly attention to this matter by developing a new conceptualised framework for the financial planning discipline It takes into account theories in agency legislation legitimacy and the independent individual regulatory regimes in other professions thereafter integrating this framework with the financial planning theory to examine the legitimacy or what was found to be the illegitimacy of licensing advisers via multiple third party conflicted commercially oriented licensees This book makes a very useful reference to understanding financial planning licencing model in Australia

Scott,2016-03-23 The study of the business of opera has taken on new importance in the present harsh economic climate for the arts This book presents research that sheds new light on a range of aspects concerning marketing audience development promotion arts administration and economic issues that beset professionals working in the opera world The editors aim has been to assemble a coherent collection of essays that engage with a single theme business but differ in topic and critical perspective The collection is distinguished by its concern with the business of opera here and now in a globalized market This includes newly commissioned operas sponsorship state funding and production and marketing of historic operas in the twenty first century

The Rise and Decline of Fundamental Rights in EU Citizenship Adrienne Yong,2019-03-21 This book argues that there is an inherent relationship between EU

fundamental rights and EU citizenship they both have the same objective of guaranteeing protection for the individual This is underpinned by the development of case law in the field by the Court of Justice of the EU CJEU Here however the author proposes that that relationship has weakened in recent years as the CJEU has entered increasingly sensitive territory in regard to the protection of citizenship rights and fundamental rights Writing in the post UK EU referendum environment the author argues that this decline is attributable to increasing Euroscepticism which has worsened since the Eurozone crisis and even more so in light of Brexit and arguments made that leaving the EU would reduce immigration This argument is particularly important to note given the rising fears of immigration that underlie much of the dissatisfaction with the EU project a feeling prevalent not only in the UK The chapters look at the rights of migrant EU citizens in Member States other than their own and the guarantees that exist as a matter of protecting their fundamental human rights which are present alongside rights enjoyed as part of being an EU citizen

VAT Neutrality Charlène Adline Herbain, 2015-05-04 Most major economies use a value added tax VAT which is a derivation of the French 1954 *taxe sur la valeur ajoutée* The initial imposition of VAT in France and its spread around the world have been driven by economic reasons This book focuses on one of these economic triggers the neutrality of VAT as regards the functioning of the economy It demonstrates that the reason VAT was chosen in France and why thereafter it spread around the world was because it offered the possibility to collect governmental revenue while allowing the economic forces of the market to interplay without being adversely affected The prerequisite conditions for the existence of VAT neutrality are therefore identified herein along with an overview of the VAT mechanism demonstrating that the concept of neutrality is built into the VAT system in a manner that allows for the preservation of the natural functioning of the market After the definition of VAT neutrality is set forth the elements that comprise VAT neutrality are tested against the realities on the ground and the issues that infringe the neutrality of VAT are identified and analysed In conclusion remedies for these issues are being sought by a review of the causes of infringement of VAT neutrality in the perspective of selected proposals for modified VAT systems These proposals include redesignating the place where VAT is levied and improving VAT collection Ultimately the proposed solution has recourse to the roots of VAT together with the most advanced technological tools available to give back to VAT the power to levy revenue while letting the economic forces of the market interplay without instigating any adverse influence
