Re-Constructing Grassroots Holocaust Memory Irina Rebrova, 2020-10-26. The main objective of the book is to allocate the grass roots initiatives of remembering the Holocaust victims in a particular region of Russia which has a very diverse ethnic structure and little presence of Jews at the same time. It aims to find out how such individual initiatives correspond to the official Russian hero-orientated concept of remembering the Second World War with almost no attention to the memory of war victims including Holocaust victims. North Caucasus became the last address of thousands of Soviet Jews, both evacuees and locals. While there was almost no attention paid to the Holocaust victims in the official Soviet propaganda in the postwar period, local activists and historians, together with the members of Jewish communities, preserved Holocaust memory by installing small obelisks at the killing sites, writing novels and making documentaries, teaching about the Holocaust at schools and making small thematic exhibitions in the local and school museums. Individual types of grass roots activities in the region on remembering Holocaust victims are analyzed in each chapter of the book. **The Debt Trap** Josh Mitchell, 2021-08-03. The Child in the Electric Chair Eli Faber, 2021-06-25 The tragic story of the killing of 14 year old George Junius Stinney Jr the youngest person executed in the United States during the twentieth century At 7 30 a m on June 16 1944 George Junius Stinney Jr was escorted by four guards to the death chamber Wearing socks but no shoes the 14 year old Black boy walked with his Bible tucked under his arm The guards strapped his slight five foot one inch frame into the electric chair His small size made it difficult to affix the electrode to his right leg and the face mask which was clearly too large fell to the floor when the executioner flipped the switch That day George Stinney became and today remains the youngest person executed in the United States during the twentieth century How was it possible even in Jim Crow South Carolina for a child to be convicted sentenced to death and executed based on circumstantial evidence in a trial that lasted only a few hours Through extensive archival research and interviews with Stinney s contemporaries men and women alive today who still carry distinctive memories of the events that rocked the small town of Alcolu and the entire state Eli Faber pieces together the chain of events that led to this tragic injustice The first book to fully explore the events leading to Stinney s death The Child in the Electric Chair offers a compelling narrative with a meticulously researched analysis of the world in which Stinney lived the era of lynching segregation and racist assumptions about Black Americans Faber explains how a systemically racist system paired with the personal ambitions of powerful individuals turned a blind eye to human decency and one of the basic tenets of the American legal system that individuals are innocent until proven guilty As society continues to grapple with the legacies of racial injustice the story of George Stinney remains one that can teach us lessons about our collective past and present By ably placing the Stinney case into a larger context Faber reveals how this case is not just a travesty of justice locked in the era of the Jim Crow South but rather one that continues to resonate in our own time A foreword is provided by Carol Berkin Presidential Professor of History Emerita at Baruch College at the City University of New York and author of several books including Civil War Wives The Lives and Times of Angelina Grimke Weld Varina Howell Davis and Julia Dent Grant

Flight Risk Forrest L. Marion, 2018-10-15 From the 1920s Afghanistan maintained a small air arm that depended heavily upon outside assistance Starting in 2005 the United States led an air advisory campaign to rebuild the Afghan Air Force AAF In 2007 a formal joint combined entity led by a U S Air Force brigadier general began air advisor work with Afghan airmen Between 2007 and 2011 these efforts made modest progress in terms of infrastructures personnel and aircraft accessions and various training courses But by 2010 advisors increasingly viewed AAF command and control C2 as a problem area that required significant improvement if a professional air force was to be built In the spring of 2011 major institutional changes to AAF C2

procedures were being introduced when nine U S air advisors were killed The attack was the worst single incident loss of U S Air Force personnel in a deployed location since 1996 and the worst insider attack since 2001 From the day of that tragic event the cultural chasm between Afghanistan and the West became more apparent This dilemma continues with no end in sight to an air advisory mission of uncertain long term value Nostalgia after Apartheid Amber R. Reed,2020-11-30 In this engaging book Amber Reed provides a new perspective on South Africa s democracy by exploring Black residents nostalgia for life during apartheid in the rural Eastern Cape Reed looks at a surprising phenomenon encountered in the post apartheid nation despite the Department of Education mandating curricula meant to teach values of civic responsibility and liberal democracy those who are actually responsible for teaching this material and the students taking it often resist what they see as the imposition of white values These teachers and students do not see South African democracy as a type of freedom but rather as destructive of their own African culture whereas apartheid at least ostensibly allowed for cultural expression in the former rural homelands In the Eastern Cape Reed observes resistance to democracy occurs alongside nostalgia for apartheid among the very citizens who were most disenfranchised by the late racist authoritarian regime Examining a rural town in the former Transkei homeland and the urban offices of the Sonke Gender Justice Network in Cape Town Reed argues that nostalgic memories of a time when African culture was not under attack combined with the socioeconomic failures of the post apartheid state set the stage for the current political ambivalence in South Africa Beyond simply being a case study however Nostalgia after Apartheid shows how in a global context in which nationalism and authoritarianism continue to rise the threat posed to democracy in South Africa has far wider implications for thinking about enactments of democracy Nostalgia after Apartheid offers a unique approach to understanding how the attempted post apartheid reforms have failed rural Black South Africans and how this failure has led to a nostalgia for the very conditions that once oppressed them It will interest scholars of African studies postcolonial studies anthropology and education as well as general readers interested in South African history and politics How We Teach Science John L. Rudolph,2019-06-01 Despite an enduring belief that science should be taught there has been no enduring consensus about how or why This is especially true when it comes to teaching scientific process John Rudolph shows that how we think about and teach science will either sustain or thwart future innovation and determine how science is perceived by the public
