**Zulu Warriors** John Laband, 2014-05-27 Toward the end of the nineteenth century the British embarked on a concerted series of campaigns in South Africa. Within three years they waged five wars against African states with the intent of destroying their military might and political independence and unifying southern Africa under imperial control. This is the first work to tell the story of this cluster of conflicts as a single whole and to narrate the experiences of the militarily outmatched African societies. Deftly fusing the widely differing European and African perspectives on events, John Laband details the fateful decisions of individual leaders and generals and explores why many Africans chose to join the British and colonial forces. The Xhosa, Zulu, and other African military cultures are brought to vivid life, showing how varying notions of warrior honor and manliness influenced the outcomes for African fighting men and their societies.

**Learning Zulu** Mark Sanders, 2016-03-22 Why are you learning Zulu? When Mark Sanders began studying the language, he was often asked this question. In *Learning Zulu*, Sanders places his own endeavors within a wider context to uncover how, in the past 150 years of South African history, Zulu became a battleground for issues of property, possession, and deprivation. Sanders combines elements of analysis and memoir to explore a complex cultural history. Perceiving that colonial learners of Zulu saw themselves as repairing harm done to Africans by Europeans, Sanders reveals deeper motives at work in the development of Zulu language learning from the emergence of the pidgin Fanagalo among missionaries and traders in the nineteenth century to widespread efforts in the twentieth and twenty-first centuries to teach a correct form of Zulu. Sanders looks at the white appropriation of Zulu language, music, and dance in South African culture and at the association of Zulu with a martial masculinity. In exploring how Zulu has come to represent what is most properly and powerfully African, Sanders examines differences in English and Zulu language press coverage of an important trial, as well as the role of linguistic purism in xenophobic violence in South Africa. Through one person's efforts to learn the Zulu language, *Learning Zulu* explores how a language's history and politics influence all individuals in a multilingual society.

**Afrikaans Linguistics** WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics, *Afrikaans Linguistics: Contemporary Perspectives* marks a seminal contribution to the field. This volume, for the first time, presents accessible insights into diverse linguistics subdisciplines, inviting international scholars to familiarise themselves with Afrikaans language studies. Throughout much of the late 19th and 20th centuries, Afrikaans scholars predominantly communicated in Afrikaans, resulting in a significant gap in the dissemination of knowledge about the language. The chapters in this book, written by prominent South Africans as well as international scholars working in the field of Afrikaans, serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century. The primary focus remains on illuminating 21st-century research trajectories, offering a comprehensive snapshot of contemporary scholarship in Afrikaans.

linguistics     The Education Triple Cocktail Brahm Fleisch, 2018-08-15 The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents

**Handbook of Research on Teaching in Multicultural and Multilingual Contexts** Charamba, Erasmios, 2022-06-24 Several factors have resulted in increased intra and inter state migration This has led to an increase in the enrollment of students with diverse linguistics backgrounds placing more academic demands on educators Linguistic diversity presents both opportunities and challenges for educators across the educational spectrum Language ideologies profoundly shape and constrain the use of language as a resource for learning in multilingual or linguistically diverse classrooms While English has become the world language most communities remain and are becoming more and more multicultural multilingual and diverse The Handbook of Research on Teaching in Multicultural and Multilingual Contexts moves beyond the constraints of current language ideologies and enables the use of a wide range of resources from local semiotic repertoires It examines the phenomenon of language use language teaching multiculturalism and multilingualism in different learning areas giving practitioners a voice to spotlight their efforts in order to keep their teaching afloat in culturally and linguistically diverse situations Covering topics such as Indigenous languages multilingual deaf communities and intercultural competence this major reference work is an essential resource for educators of both K 12 and higher education pre service teachers educational psychologists linguists education administrators and policymakers government officials researchers and academicians     Southern African Linguistics and Applied Language Studies ,2007     *Multilingualism, Literacy and Dyslexia* Lindsay Peer, Gavin Reid, 2016-02-05 This fully revised new edition provides advice on the identification assessment and support of bilingual learners and assists practitioners in identifying the difference between literacy difficulties due to bilingualism or multilingualism and dyslexia An essential text for staff development it includes innovative approaches in technology and teaching programmes beneficial to multilingual learners and advice on learning additional languages With contributions from experts from across the globe this book will provide guidance on key themes including the assessment of multilingual learners the impact of dyslexia on bilingualism the literacy challenges facing learners from Indigenous cultures the role of the SENCO in identifying children with English as an additional language and Dyslexia the emotional needs of

This book is based on chapters in a series of four books from the first five years 2002 2006 of the Language of Instruction in Tanzania and South Africa LOITASA project LOITASA is a NUFU funded Norwegian University Fund project which began in January 2002 and will continue through to the end of 2011 The chapters reflect the state of the research at the end of the first five years of LOITASA in 2006 and were selected by reviewers independent of the project The selection of chapters brought together bring to the forefront the dilemmas facing developing countries as they seek to position themselves in an increasingly interconnected global system while at the same time maintaining a sense of national and regional identity The chapters in this collection reflect both positive outcomes when the medium of instruction is a widely known language as well as the challenges of mother tongue instruction in countries where historically a powerful language like English has dominated The four LOITASA books in this series from which the chapters in this book are drawn are Language of instruction in Tanzania and South Africa LOITASA published by E Zubeida Desai the South African project leader and Martha Qorro who is on the project steering committee in Tanzania *Focus* , 2001 *Teaching Mathematics in*

*Multilingual Classrooms* J.B. Adler,2005-12-21 Increasingly teachers all over the world are grappling on a daily basis with the fact of multilingual classrooms In this book Jill Adler captures three inter related dilemmas that lie at the heart of teaching mathematics in multilingual classrooms Adler s identification and naming of the dilemma of code switching the dilemma of mediation and the dilemma of transparency arise from exploring the realities of actual classrooms and are shaped by a perspective of teaching as a social practice Adler provides a sharp analysis and strong theoretical grounding for her work pulling together research related to the relationship between language and mathematics communicating mathematics and mathematics in bi multilingual settings In so doing she offers a direct challenge to dominant research on communication in mathematics classrooms that has othered the multilingual setting in its normalisation of the monolingual classroom The norm is a multicultural one Set in contemporary South Africa a context of linguistic diversity and rapid change this book offers a spotlight whose beam is wide enough to illuminate dilemmas at work in all mathematics classrooms Progress, Change and Development in Early Childhood Education and Care Elizabeth Coates,Dorothy Faulkner,2017-10-02 In 2000 the Millennium Development Goals set out targets aimed at creating a safer more prosperous and more equitable world If these goals were to be achieved children s lives would indeed be transformed In this collection achievements against these targets are identified with each contributor examining the progress made in early years provision in Australia China England Greece the Netherlands Portugal South Africa and Sweden They highlight the priorities and agendas of their respective governments and focus on the trends and issues which are particularly relevant to each situation thereby revealing the social and educational inequalities that persist across countries A common theme running through this volume concerns the political tensions that arise when governments and educators hold fundamentally different views about the nature and purpose of early years education and the needs of children and families It is clear that although the past two decades have seen many changes in attitude towards the importance of the early years of life politically economically and environmentally much still remains to be done if the Millennium Development Goals for young children and their families are to be fully met Despite this this volume demonstrates that those who work in this area continue to experience a deep concern for the well being of young children which transcends cultures frontiers and political and sectarian divides This book was originally published as a special issue of the International Journal of Early Years Education XXX International Congress of Psychology: Abstracts Michele Robert,2017-10-03 The abstracts of the XXX International Congress of Psychology July 2012 Cape Town are published as a supplement to Volume 47 of the International Journal of Psychology The published volume includes the abstracts of the invited addresses symposia oral and poster presentations numbering over 5 000 separate contributions and creating an invaluable overview of the discipline of psychological science around the world today *Entanglements* Sinfree Makoni,Unyierie Idem,Edwin Appah Dartey,Bassey E. Antia,2025-08-05 This book explores the ways in which language is understood in diverse contexts and how linguistic theories and the idea of language as an object fail to represent a reality

that is inherently multi and trans The chapters tease out the way that an understanding of language as a social practice and the central role of the speaker s and their repertoire allows for a more nuanced interpretation of language in contexts ranging from English as an international neutral language in research and teaching to the importance of life trajectories and multilingualism in the development of theoretical perspectives The book offers a glimpse of a decolonial linguistics that recognizes the importance of entanglement between languages between the North and South and between the personal and the theoretical
