Alice Martini, Raquel da Silva

Homeland Security Report Rightwing:

Oversight of the Department of Homeland Security United States. Congress. Senate. Committee on the Judiciary, 2010

Issues in Terrorism and Homeland Security CQ Researcher, 2010-09-21 With six new articles covering topics such as terrorism and the internet prosecuting terrorists and homeland security this reader friendly textbook will inspire students whilst helping them to understand the key material in this field

Right-Wing Resurgence Daryl Johnson, 2012-09-14 In 2008 there were 149 militia groups in the United States In 2009 that number more than tripled to 512 and now there are nearly 600 In *Right Wing Resurgence* author Daryl Johnson offers a detailed account of the growth of right wing extremism and militias in the United States and the ever increasing threat they pose The author is an acknowledged expert in this area and has been an intelligence analyst working for several federal agencies for nearly 20 years The book is also a first hand insider s account of the DHS *Right Wing Extremism* report from the person who wrote it It is a truthful depiction of the facts circumstances and events leading up to the leak of this official intelligence assessment The leak and its aftermath have had an adverse effect on homeland security Because of its alleged mishandling of the situation the Department s reputation has declined in the intelligence and law enforcement communities and the analytical integrity of the Office of Intelligence and Analysis was undermined Most importantly the nation s security has been compromised during a critical time when a significant domestic terrorist threat is growing This book is replete with case studies and interviews with leaders which reveal their agendas how they recruit and how they operate around the country It presents a comprehensive account of an ever growing security concern at a time when this threat is only beginning to be realized and is still largely ignored in many circles

CTS and Right-Wing Terrorism and Counterterrorism Alice Martini, Raquel da Silva, 2023-08-22 This volume is a timely contribution to the current debates and potential efforts to study and counter the phenomena of extreme right violence in a period when the rise of right wing extremism is being witnessed across the globe Against this backdrop the violent radicalisation and extremism of individuals and groups belonging to the extreme right threaten to undermine and destabilize societies and democratic orders leaving a research gap that has only started to be filled in recent years but that is still quite wide when it comes to counter terrorism approaches to extreme right violence Learning from the past and trying to avoid similar mistakes this volume creates a much needed space for open honest and ethical debate around countering extreme right violence answering social and political calls to debate how to counter this kind of violence This volume brings together a group of interdisciplinary scholars to contribute to national and international academic and policy debates about countering extreme right violence from a critical perspective Volume I focuses particularly on exploring how extreme right violence has been approached narrated and made sense of in different spatial and temporal contexts examining how political actors such as media and politicians portray the threat of and actual violence perpetrated by the extreme right deconstructing current counter terrorism approaches and formulating a critical approach to researching extreme right

violence It will be of great interest to all students of terrorism studies security studies international relations and political science in general The chapters in this book were originally published in Critical Studies on Terrorism

Right-Wing Terrorism in the 21st Century Daniel Koehler, 2016-10-04 This book is the first comprehensive academic study of German right wing terrorism since the early 1960s available in the English language It offers a unique in depth analysis of German violent extremist right wing movements terrorist events groups networks and individuals In addition the book discusses the so called National Socialist Underground NSU terror cell which was uncovered in late 2011 by the authorities The NSU had been active for over a decade and had killed at least ten people as well as executing numerous bombings and bank robberies With an examination of the group s support network and the reasons behind the failure of the German authorities this book sheds light on right wing terrorist group structures tactics and target groups in Germany The book also contains a complete list of all the German right wing terrorist groups and incidents since the Second World War Based on the most detailed dataset of right wing terrorism in Germany this book offers highly valuable insights into this specific form of political violence and terrorism which has been widely neglected in international terrorism research

The National Security Enterprise Roger Z. George, Harvey Rishikof, 2017-07-01 This second edition of The National Security Enterprise provides practitioners insights into the operation missions and organizational cultures of the principal national security agencies and other institutions that shape the US national security decision making process Unlike some textbooks on American foreign policy it offers analysis from insiders who have worked at the National Security Council the State and Defense Departments the intelligence community and the other critical government entities The book explains how organizational missions and cultures create the labyrinth in which a coherent national security policy must be fashioned Understanding and appreciating these organizations and their cultures is essential for formulating and implementing it Taking into account the changes introduced by the Obama administration the second edition includes four new or entirely revised chapters Congress Department of Homeland Security Treasury and USAID and updates to the text throughout It covers changes instituted since the first edition was published in 2011 implications of the government campaign to prosecute leaks and lessons learned from more than a decade of war in Afghanistan and Iraq This up to date book will appeal to students of US national security and foreign policy as well as career policymakers

Blood in the Face (revised new edition) James Ridgeway, 2025-01-14 In 1990 BLOOD IN THE FACE The Ku Klux Klan Aryan Nations Nazi Skinheads and the Rise of a New White Culture was the first book to uncover the contours beliefs leaders and wider influence of the American racist far right movement It told their story from the inside out complete with interviews recruiting pamphlets cartoons rants sermons threats police reports and more The accompanying analysis by veteran investigative reporter James Ridgeway detailed the movement s volatile history and its expansion beginning in the 1980s insisting that the groups making up this fringe culture were too powerful and too much a part of American culture to be ignored or dismissed When the book s prescience about the dangers of the racist far

right became manifest in the Oklahoma City bombing of 1995 a second edition of BLOOD IN THE FACE was released with a new introduction charting the rise of the Militia Movement to which Timothy McVeigh and his co conspirators were connected Since then both the book and the documentary film that accompanied its release also titled BLOOD IN THE FACE have earned cult followings In the past 25 years Ridgeway s final warning that the fringe was becoming part of the fabric of American politics and culture have come to chilling fruition in the rise of the Tea Party the racist backlash against the presidency of Barack Obama the resurgence of anti immigrant Nativism the growth of racist far right media and the election of Donald Trump with the thunderous support of white nationalists

Encountering extremism Alice Martini,Kieran Ford,Richard Jackson,2020-08-18 Countering extremism is starting to receive more attention as a subject of research in academia and policy circles alike demonstrating its rising popularity within the market Nevertheless the market currently lacks literature on the topic of extremism as opposed to terrorism and critical approaches in particular The concept of this book thus grows from the need to look at the under researched approaches to the topic from a critical perspective This book brings together a set of scholars from a diverse range of countries experts in many fields of social sciences to present valuable multidisciplinary analysis of both theoretical and practical aspects related to countering extremism It will thus be of interest for scholars and students of the following disciplines among others Anthropology Comparative Politics Criminology Education Studies Gender Studies International Relations Post colonial Studies Peace Studies Sociology Subaltern Studies Terrorism Studies

Eco-terrorism Specifically Examining the Earth Liberation Front and the Animal Liberation Front

United States. Congress. Senate. Committee on Environment and Public Works,2007 The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government

Now Tell Me I Was Wrong Tom DeWeese,2011-01-05 In this book Tom DeWeese has collected a strong representation of the hundreds of articles hes written on these subjects through the years These articles were written during some of the greatest changes to our government our schools our economy and our personal freedoms yet witnessed in American history They document the fights that erupted over those changes as policy was being written and enacted They name the perpetrators and document their actions In short this book represents a history of some of the major political battles of our time and stands as a truly remarkable indictment of not only the Democrats but more so of the Republicans who had a chance to stop those changes but instead actually helped make them happen For decades Tom DeWeese has been sounding the alarms over government land grabs radical environmentalists radical reform in the schools attacks on our national sovereignty and UN driven global governance For his efforts Tom DeWeese was not only ignored but derided and labeled an alarmist Now however those policies he warned us about are front page headlines fueling a national discontent As a result today most of the issues are the root of the growing national protest now commonly known as the Tea Party movement As they rip apart our nation and protests grow in our streets Tom DeWeese issues this challenge
