Homeless English Edition:

Women's Homelessness in Europe Paula Mayock, Joanne Bretherton, 2017-02-08 This book marks a critical contribution in assessing and extending the evidence base on the causes and consequences of women's homelessness. Drawing together work from Europe's leading homelessness scholars it presents a multidisciplinary and comparative analysis of this acute social problem including its relationship with domestic violence, lone parenthood, motherhood, health and well-being, and women's experience of sustained and recurrent homelessness. Working from diverse perspectives, the authors look at the responses to women's homelessness in differing cultures and regions and within various forms of welfare states. They focus in particular on relating the gender dimensions of welfare and social policy to women's experiences when they become homeless. This innovative and timely edited volume will appeal to students and scholars of sociology, social policy, anthropology and gender, and women's studies, along with international policy makers.

Homelessness among Young People in Prague Marie Vágnerová, Ladislav Csémy, Jakub Marek, 2014-11-11 The chronically homeless face a stark reality: lack of access to support systems, adequate shelter and sustenance, with little hope for something better. For young people, however, life on the street may be merely a temporary stage in their lives. This book tells of homelessness among young people, the causes and their attitudes to the various problems they face. Young homeless people describe a life in which they lose their privacy, the possibility to satisfy their basic needs, and often their self-respect in order to survive. The latter half of the book considers what happens when these young people return to society and how they navigate difficulties as they attempt to leave their past behind. Often the struggle is not solely one of coping with the stigma of their experience; rather, they must face the legacies that linger long after their lives have turned a corner: drug addiction, criminal records, and accumulated debt. Based on interviews with homeless people in Prague, *Homelessness as an Alternative Existence of Young People* paints an authentic picture of this social group and documents the often unseen social consequences of the transformation to capitalism from communism.

Coping with Homelessness Dragana Avramov, 2018-12-17 First published in 1999, the phenomenon of homelessness is not new, but it has only recently been perceived as a social problem in European Member States. Even in the early 1990s, little was known about the paths in and out of homelessness. This volume presents the papers arising from EUROHOME: Emergency and Transitory Housing for Homeless people Needs and Best Practices. This project enabled a review of the state of knowledge in the field, an analysis of recent trends, and a discussion of the prospects for improvement in the prevention of homelessness and the public response to housing in Europe. EUROHOME and this collection thus bring together experts in the study of

The Homeless Imagination in the Fiction of Israel Joshua Singer Anita Norich, 1991-12-22 the most incisive study to date of the lesser-known but equally talented Singer. Israel Joshua Singer's choice exceedingly well researched and written. Shofar. This critical examination of the fiction of I. J. Singer is deft in its placement of the novels and short stories in historical context, but with new perspectives on that historical context. AJL
