Congress. House. Committee on Science and Technology. Subcommittee on Natural Resources, Agriculture Research, and Environment,1984 2001 *Atlantic Hurricane Season , Climate Changed* Mara Freilich,Irmak Turan,Jessica Varner,Lizzie Yarina,2025-07-15 Models change our worlds From global carbon flux models to regional coastal flood prediction maps climate related models influence how we know our environment how we build our cities and how we act on a climate altered planet Yet such models

typically require specialized knowledge to navigate and because the climate crisis is inherently multidimensional technical expertise in isolation is not enough *Climate Changed* examines models and their imperfect yet central role in understanding the relationship between global climate dynamics and the human built environment It compares and synthesizes the methods and function of models in disciplines ranging from architecture and planning to climate science and natural hazards research This book considers how disparate models are woven together to understand the climate crisis underscoring the necessity of combining locally situated and transdisciplinary knowledge with climate science to navigate current and future cataclysmic changes It highlights the challenges and consequences of disciplinary boundaries siloed scientific knowledge and uneven data and develops ways to overcome these limitations As the world faces the effects of climate change climate scientists are debating the future of their field architects engineers and planners are designing in the context of climate change and society at large is grappling with how to take action This book brings those communities together to chart a path forward **High**
