Rising, 1968 [Youth Ministry in Africa](#) Nathan H. Chiroma, 2025-08-18 Across the globe there is a need to empower young people to live out their faith within the complexities of their own diverse contexts This is particularly true in Africa the continent with the world s youngest population Yet despite the general popularity of youth ministry there is a lack of relevant resources addressing the specific challenges and opportunities faced by young people growing up on the African continent This book seeks to address that gap Written specifically by African authors for an African context this collection of essays provides a biblical and theological framework for culturally relevant youth ministry Each chapter examines the cultural socio economic and spiritual factors that shape the experiences of young people on the continent and contributors highlight the importance of addressing such issues as identity

sexuality community development social justice and digital media all while remaining faithful to the gospel Filled with practical concepts for ministry and action this book seeks to empower African youth by equipping them with the biblical knowledge and leadership skills they need to become agents of change in their own communities This resource is designed for pastors youth leaders and anyone passionate about nurturing the next generation of believers and providing them with the tools to cultivate vibrant resilient faith in the face of modern challenges in Africa and beyond Augustine to Freud Kenneth Boa,2004 Six theologians and eight psychologists from history square off finding both differences and common ground in their thinking on the most basic human needs **Narrative Identity** Trevor Castor,2021-11-09 Narrative Identity is the product of seven years of research among Muslim immigrants living in America This book will help you to understand the role that stories have in shaping how we see the world ourselves and others by exploring the process of identity formation for one of the most feared and least understood Muslim peoples in the world the Pashtun The Pashtun are most often associated with the Taliban and for harboring Osama bin Laden after the attacks on 9 11 For centuries these people have been accustomed to war and ethnic tribal and religious violence in the regions of Afghanistan and Pakistan As a result the Pashtun are also one of the largest ethnic groups migrating throughout the West More recently their identity has been reduced to the violent actions of Islamic terrorism committed by a few Pashtun immigrants living in Western nations This study explores the various factors that impact identity formation for Pashtun immigrants including transnationalism social media and the ongoing negative media attention concerning Islam and Muslims This book helps readers understand the nuances of identity formation which are critical to consider in order to avoid the crude categorizations so often associated with identity politics **Youth Identity, Politics and Change in Contemporary Kurdistan** Shivan Fazil,Bahar Baser,2021-09-01 Today s youth are challenging the older political class around the world and are forming new political generations Examples from South Africa and elsewhere where peace processes were deemed to be successful show signs of youth disapproval of the current post conflict conditions Moreover the Arab Spring witnessed numerous youth movements emerge in authoritarian and illiberal contexts This book was prepared in light of these discussions and aims to contribute to these ongoing debates on youth politics by presenting the situation of youth in the Kurdistan Region of Iraq KRI as a case study It will be the first book that specifically focuses on the Iraqi Kurdish youth and their political social and economic participation in Kurdistan The contemporary history of the KRI is marked by conflict war and ethnic cleansing under Saddam Hussein and the tyranny of the Ba ath regime significantly affecting the political situation of the Kurds in the Middle East Most of the recent academic literature has focused on the broader picture or in other words the macro politics of the Kurdish conundrum within Iraq and beyond There is little scholarship about the Kurdish population and their socio economic conditions after 2003 and almost none about the younger generation of Kurds who came of age during autonomous Kurdish rule This is a generation that unlike their forebears has no direct memory of the decades long campaigns of repression

Studying and examining the rise of this generation of Kurdish young millennials Generation 2000 who came of age in the aftermath of the United States invasion of Iraq offers a unique approach to understand the dynamics in a region that underwent a substantial socio political transformation after 2003 as well as the impact of these developments on the youth population Pursuing different themes and lines of inquiry the contributors of the book analyze the challenges and opportunities for young men and women to fulfil their needs and desires and contribute to the ongoing quest for nationhood and nation building In this book our aim is to bring together a variety of perspectives from local and foreign academics who have been working on pressing issues in Kurdistan and beyond The chapters focus on an array of themes particularly including political participation political situation and change religiosity and extremism Taken together the chapters provide us with an introduction to youth politics in Kurdistan This book is just the first attempt to open academic and nonacademic debate on this subject at a time when protests around youth related issues are becoming a more prevalent method of political engagement in the region Our hope is that more research follows and supplements what has not been addressed in this book especially through the introduction of first hand youth perspectives to the core of this analysis and giving them a voice in nonviolent platforms

Identity Excellence Perry L. Glanzer,2022-07-18 American higher education historically and inherently is a morally formative endeavor Yet in order to respond to America s moral pluralism higher education has increasingly taken a

reductionistic approach to moral formation. Consequently, it abandoned the effort to supply students with moral expertise. Current approaches help students learn how to be excellent professionals and citizens, but they fail to provide the necessary tools for living the good life in college and beyond. *Identity Excellence: A Theory of Moral Expertise for Higher Education* addresses this problem by setting forth a multi-disciplinary theory of moral expertise for fostering moral excellence in an array of important identities. To this end, it teases apart the essential elements of what it means to be excellent in an identity before discussing the philosophical, sociological, psychological, and educational processes necessary for students to internalize traditions of identity excellence as part of their own moral identities. Overall, the emergent theory exposes the shortcomings in contemporary general education, professional ethics, and co-curricular education. Finally, this book sets forth a bold but compelling vision for a more hopeful future for American higher education. As outlined within, such education involves teaching students excellence in the Great Identities, as well as how to prioritize and integrate their pursuit of identity excellence.
