Coping, Personality and the Workplace Alexander-Stamatios Antoniou, Cary L. Cooper, 2017-05-15 How an individual responds to crises and critical incidents at work both immediately and subsequent to the event is heavily influenced both by personality characteristics and their use of coping strategies These can in turn be affected by levels of education gender and even the profession within which the individual is working Coping Personality and the Workplace offers theory research and practice on our ability to cope with dangerous situations critical incidents or other work crises The chapters include perspectives on social and health habits and risks gender and age differences as well as a range of different sources of threat financial psychological and physical those within and outside the individual s control immediate and chronic For organizations this collection provides help and advice to build into employee safety and support programmes for policy makers a sense of the emerging sources of risk related to occupational health and for researchers an anthology of original applied research from some of the leading authors in three continents

Against Inequality Tom Malleon, 2023 In an era of remarkable wealth idolatry Tom Malleon investigates the ethical justifications of wealth inequality taking the radical position that we should abolish the billionaires Stark inequality is a problem the world over but it has been worsening over the past thirty years particularly in rich economically developed countries To acquire the same amount of wealth as Elon Musk the average American worker would have to work for more than four and a half million years Is this inequality morally acceptable and is it feasible to actually reduce inequality in the real world In *Against Inequality* Tom Malleon makes the case for rejecting meritocracy presenting a strong defense against the claim that individuals deserve their wealth Malleon argues that people especially rich people do not morally deserve the bulk of their income because it does not by and large come from anything the specific individual does but is largely due to the vast understructure of other people s labor in addition to their lucky possession of bodily talents and efforts Furthermore the book brings to light extensive historical and comparative evidence to show that raising taxes on both income and wealth is practically feasible and that the costs of doing so are far outweighed by the truly enormous benefits that such taxes could bring in terms of environmental sustainability democratic equality equal opportunity and reduced racism and xenophobia Unlike previous books on inequality *Against Inequality* focuses on the superrich arguing that they have far too much a world with billionaires alongside severe deprivation is a world without justice Malleon s argument is not that billionaires are individually evil but that a society that allows the existence of the superrich is structurally immoral In an era of remarkable wealth idolatry *Against Inequality* takes the radical position that we should abolish the billionaires

Water Policy and Governance in South Asia M. Anwar Hossen, 2017-03-16 Dr Hossen carried out an exceptional program of research in Bangladesh which focused on water governance in relation to human rights international water law and environmental sustainability His major argument is that eco agricultural system encounters major disruptions due to a number of factors including regional hydropolitics and neoliberal and highly

centralized approaches to water resource management that follow the principles of ecocracy In this context Dr Hossen explores three major questions i How can local ecological knowledge be incorporated into national water policy ii What strategies and reforms are required at the international watershed governance level and iii How can human rights principles including the principle of water as a human right be used to formulate more effective water policy and governance principles To answer these questions Dr Hossen explores the effects of regional hydropolitics on water management focusing on three large engineering projects the Farakka Barrage built by India on the Ganges River and the Ganges Kobodak GK and Gorai River Restoration GRR Projects in Bangladesh This analysis is based on his research into local knowledge and farming practices during a year of fieldwork in 2011 12 focus group discussions in depth case studies and social survey methods In addition to this primary data he looks at extensive secondary documents from the government of Bangladesh pertaining to water management agricultural modernization and institutional structures The arguments herein are applicable particularly to the Ganges Brahmaputra Basin countries in South Asia but also to the river basins of other parts of the world

Sustainable Development Goals for Society Vol. 1 Godwell Nhamo, Muchaiteyi Togo, Kaitano Dube, 2021-06-16 Written by 43 authors from Africa Europe and Latin America this book presents 19 topics addressing poverty in the context of Sustainable Development Goals SDGs leadership in implementing SDGs and SDGs in service delivery and local government As the world has gone past five years of implementing the 2030 Agenda for Sustainable Development and the intertwined 17 SDGs new opportunities in research continue to open up Hence documenting some of the initiatives put in place around the world regarding the implementation of the SDGs is one of the aims of this publication With 10 years remaining the book further enhances the desire to scale up SDGs implementation The selection of case studies from the selected regions also provides a balance in terms of how the SDGs are being rolled out for economic growth environmental stewardship and social protection The ambition remains even with the challenge brought by the COVID 19 pandemic that preoccupied the whole of 2020 spilling over to 2021 There is no doubt that resources have been diverted but the world must stay on the course to 2030 and beyond Therefore the book is relevant for several stakeholders including the academics development partners government officials and other individuals that are involved in making sure no one is left behind in the lead to 2030

Globalization, Human Rights and Populism Adebowale Akande, 2023-06-16 This book offers a comprehensive and multidisciplinary global overview of populism and human rights in the light of globalization It examines why the dominant neo liberal paradigm of the last decades resulted in major economic and social inequalities which resulted in the surge of national populism led by the election success of right wing parties movements and leaders across the world It discusses among other topics the success of Brexit in Britain and the election success of Donald Trump and Marine Le Pen and explains why there is a need for a dialogue on human rights and globalization in this era of populism Further contributions analyze various important topics of the field including cross culturalism globalization human rights challenges and threats diversity

curbing global corruption sustainable development populism the decline of free speech the new nationalism internationalization global regime of human rights leadership theory global management competencies gender quality management individualism collectivism and examples of new initiatives in global organizations This makes the book a valuable and useful resource for students researchers and scholars of international relations political science sociology political psychology law diplomatic studies Communication and media studies economics education and management as well as practitioners and policy makers interested in a better understanding of globalization populism and human rights

Marxism and Real Estate Development Julian Roche, 2023-09-01 This book straddles two worlds and attempts to bring them together that of Lefebvre's Marxism on the one hand and that of real estate development on the other Lefebvre has now become a household name amongst many contemporary Marxists especially those with an interest in urban planning and certain quarters of the architectural profession however his work is far less well known by real estate professionals whether investors developers brokers or indeed policymakers Marxism and Real Estate Taking Lefebvre Seriously has both a large scope and a very bold aim to use an explication and analysis of the work of Henri Lefebvre not only to present a critique of development but also to draw these two worlds together It therefore first aims to present the arguments of this increasingly well known French Marxist philosopher sociologist and pioneer of urban studies second to situate contemporary real estate development in the light of Lefebvre's work and third to analyse the potential application of Lefebvre's work to each of the major components of contemporary real estate to use Lefebvre's work in order to recommend practical action for developers working alongside planners and architects to influence the future of global real estate As well as its direction at developers themselves this book should be of interest to economists real estate researchers and professionals planners urban studies scholars and of course to those interested in the application of Lefebvre's work to real estate *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events □□□□□□□□□□□□□□□□□□ □□ □, 2016-01-01 [Index Medicus](#), 2004 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings

L. Krementsov,2018 In 1865 British polymath Francis Galton published his initial thoughts about the scientific field that would become eugenics The same year Russian physician Vasili Florinskii addressed similar issues in a sizeable treatise entitled Human Perfection and Degeneration Initially unheralded Florinskii s book would go on to have a remarkable afterlife in twentieth and twenty first century Russia In this lucid and insightful work Nikolai Krementsov argues that the concept of eugenics brings together ideas values practices and fears energised by a focus on the future It has proven so seductive to different groups over time because it provides a way to grapple with fundamental existential questions of human nature and destiny With and Without Galton develops this argument by tracing the life story of Florinskii s monograph from its uncelebrated arrival amid the Russian empire s Great Reforms to its reissue after the Bolshevik Revolution its decline under Stalinism and its subsequent resurgence first as a founding document of medical

genetics and most recently as a manifesto for nationalists and racial purists Krementsov's meticulously researched biography of a book sheds light not only on the peculiar fate of eugenics in Russia but also on its convoluted transnational history elucidating the field's protean nature and its continuing and contested appeal to diverse audiences multiple local trajectories and global trends It is required reading for historians of eugenics science medicine education literature and Russia and it will also appeal to the general reader looking for a deeper understanding of this challenging subject Publisher's website
