The Year Book of Modern Languages Gilbert Waterhouse, 1920 **Year Book of Modern Languages**, 1920 All Puns Intended Walter Redfern, 2017-12-02 The 19th century in France spawned numerous fous litteraires one of them being Jean Pierre Brisset 1837 1919 An individualist among individualists he dismantled the existing French tongue reshaping it to suit his own grandiose purposes which were to explain afresh the development of human beings from frogs and of their language from croaks Continuous and ubiquitous punning was a unique feature of his writing In this study Redfern examines such themes as the nature of literary madness the phenomenon of deadpan humour the role of analogy and the place of institutional religion in Brisset s creative rewriting of the creation An Annotated Bibliography of Jane Austen Studies, 1984-94 Barry Roth, 1996 This Professor Roth s third annotated bibliography of studies on Jane Austen covers the years 1984 1994 Like the critically acclaimed earlier volumes it charts the steady growth and enrichment of literary criticism of Austen in the second half of the twentieth century The first bibliography which covered the period 1952 1972 contained 794 items the second which treated 1973 1983 included over 1 060 pieces this third work has 1 327 entries Such concentrated attention paid to this major English novelist shows signs only of intensifying for fresh illuminating interpretations continue to appear at a rapid pace This bibliography serves as a scholarly tool locating and summarizing research so as to establish the present state of our knowledge of Austen studies and to assist others in proceeding as fully informed as possible of past efforts This third bibliography includes all Austen studies first published in the period 1984 1994 more particularly every book essay article and doctoral dissertation on her as well as the critical matter appended to every edition of her works in English and to translations and significant mentions For clarity and ease of reference the bibliography is divided into three main sections The first covers books essays and articles devoted entirely or in good part to Austen including reviews of all the

book length studies The second section focuses on doctoral dissertations wholly or in part about her The third gathers together significant mentions included regardless of length when they entail an unusual perceptive or otherwise striking idea Austen followers everywhere will welcome Roth's thorough research and systematic presentation

The Progressive Poetics of Confusion in the French Enlightenment John C. O'Neal, 2011-03-14 In *The Progressive Poetics of Confusion in the French Enlightenment* John C O'Neal draws largely on the etymological meaning of the word confusion as the action of mixing or blending in order to trace the development of this project which he claims aimed to reject dogmatic thinking in all of its forms and recognized the need to embrace complexity Eighteenth century thinkers used the notion of confusion in a progressive way to reorganize social classes literary forms metaphysical substances scientific methods and cultural categories such as taste and gender In this new work O'Neal explores some of the paradoxes of the Enlightenment's theories of knowledge Each of the chapters in this book attempts to address the questions raised by the eighteenth century's particular approach to confusion as a paradoxical reorganizing principle for the period's progressive agenda Perhaps the most paradoxical thinker of his times Diderot occupies a central place in this study of confusion Other authors include Marivaux Crillon Voltaire and Pinel among others Rousseau and Sade serve as counterexamples to this kind of enlightenment but ultimately do not so much oppose the period's poetics of confusion as they complement it The final chapter on Sade combines contemporary discussions of politics society culture philosophy and science in an encyclopedic way that at once reflects the entire period's tendencies and establishes important differences between Sade's thinking and that of the mainstream philosophies Ultimately confusion serves O'Neal argues as an overarching positive notion for the Enlightenment and its progressive ideals

Alienation and Theatricality Phoebe von Held, 2017-07-05 Alienation *Vefremdung* is a concept inextricably linked with the name of twentieth century German playwright Bertolt Brecht with modernism the avant garde and Marxist theory However as Phoebe von Held argues in this book alienation as a sociological and aesthetic notion *avant la lettre* had already surfaced in the thought of eighteenth century French philosopher and writer Denis Diderot This original study destabilizes the conventional understanding of alienation through a reading of *Le Paradoxe sur le comédien* *Le Neveu de Rameau* and other works by Diderot opening up new ways of interpretation and aesthetic practices If alienation constitutes a historical development for the Marxist Brecht for Diderot it defines an existential condition Brecht uses the alienation effect to undermine a form of naturalism based on subjectivity identification and illusion Diderot by contrast plunges the spectator into identification and illusion to produce an aesthetic of theatricality that is profoundly alienating and yet remains anchored in subjectivity

Beyond Postmodernism Klaus Stierstorfer, 2012-05-02 After the veritable hype concerning postmodernism in the 1980s and early 1990s when questions about when it began what it means and which texts it comprises were apt to trigger heated

discussions the excitement has notably cooled down at the turn of the century Voices are now beginning to be heard which seem to suggest a new episteme in the making which points beyond postmodernism while it remains at the same time very uncertain whether what appears as newness is not rather a return to traditional concepts theoretical premises and authorial practices Contributors to this volume propose to explore new openings and recent developments in anglophone literatures and cultural theories which engage with issues seen to be central in the construction of a postmodern paradigm but deal with them in ways that promise new openings or a new Zeitgeist

The Enlightenment and the Intellectual Foundations of Modern Culture Louis Dupre, 2008-10-01 The prestige of the Enlightenment has declined in recent years Many consider its thinking abstract its art and poetry uninspiring and the assertion that it introduced a new age of freedom and progress after centuries of darkness and superstition presumptuous In this book an eminent scholar of modern culture shows that the Enlightenment was a more complex phenomenon than most of its detractors and advocates assume It includes rationalist as well as antirationalist tendencies a critique of traditional morality and religion as well as an attempt to establish them on new foundations even the beginning of a moral renewal and a spiritual revival The Enlightenment's critique of tradition was a necessary consequence of the fundamental modern principle that we humans are solely responsible for the course of history Hence we can accept no belief no authority no institutions that are not in some way justified This foundation for better or for worse determined the course of the following centuries Despite contemporary reactions against it the Enlightenment continues to shape our own time and still distinguishes Western culture from any other

The Novel: An Alternative History, 1600-1800 Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry* This is the period of such classic novels as *Tom Jones* *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists Spanish picaresques French heroic romances massive Chinese novels Japanese graphic novels eccentric English novels and the earliest American novels These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works

As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience The Novel An Alternative History also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms Booklist

Framing Literary Humour Jeanne Mathieu-Lessard, 2020-01-23 Contrary to what their oppressive design would lead us to believe might structures of imprisonment actually incite humour Starting from the most obvious areas of imprisonment war camps prison cells and moving to the less obvious masks bodies Framing Literary Humour demonstrates how 20th century humour in theory and in fiction cannot be fully understood without a careful look at its connection with the notion of imprisonment Understanding imprisonment as a concrete spatial setting or a metaphorical image Jeanne Mathieu Lessard analyses selected works of Romain Gary Giovannino Guareschi Wyndham Lewis Vladimir Nabokov and Luigi Pirandello to reconfigure confinement as an essential structural condition for the emergence of humour
