Jaguar/Daimler XJ 1994-2003 Peter Crespin, 2009 The fabulous modern big Jaguars still attract admiration but you need to know how to buy the best This highly illustrated book gives all the practical advice you could wish for when considering a purchase What to look for what to avoid and whether the car is likely to suit your needs plus relative values and the best places to buy *The Book of the Jaguar XJ-S* Brian Long, 2011 The definitive history of Jaguar's E Type replacement the XJ S More a grand tourer than a sportscar the controversially styled XJ S offered a combination of supercar performance and grand tourer luxury Includes rare photos of the prototypes that didn't make production **Jaguar Mk1 and 2, S-Type and 420** James Taylor, 2016-02-29 A history of all four generations of compact Jaguar and their Daimler equivalents tracing the gradual development of Sir William Lyons' original idea over a period between 1955 and 1969 From the powerful luxury MK1 and 2 cars to the 4.2 litre 420 this book covers design development and styling special bodied variants racing performance buying and owning a compact Jaguar saloon model and finally specifications and production figures *Jaguar XJ-S* James Taylor, 2019-05-13 James Taylor remembers very well the disappointment among his petrol head friends when the XJ S was announced in 1975 It was not a replacement for the legendary E type its colours were uninspired and its interior was drab All credit then to those people at Jaguar who truly believed in the car and over a period of nearly 20 years turned the ugly duckling into a swan From the moment the XJ S HE arrived in 1981 there seemed to be renewed hope and from then on the car went from strength to strength to become the much admired grand tourer it always should have been The book contains a timeline of the key events in the history of the XJ S and an overview of the evolution of the XJ S from the XJ27 prototype There are Appendices covering identification serial numbers UK showroom prices through the years and sales in the US by year **British Leyland** James Taylor, 2018-03-26 In 1968 British Leyland brought together many of Britain's motor manufacturers with the intention of creating a robust unified group that could equal the strength of the big European conglomerates But this was not to be There have been many books about the politics and the business activities of British Leyland but *British Leyland The Cars 1968-1986* looks exclusively at the cars that came from the company both the models it inherited and those it created The eighteen years of the corporation's existence saw a confusing multitude of different car types but this book resolves these confusions clarifying who built what and when The book takes 1986 as its cut off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group The book includes Production histories and technical specifications of every major model The special overseas models Appendices on engines code names and factories Buying guidance on the models built in

Britain This is the most comprehensive book so far to focus on the cars from British Leyland between 1968 1986 and it provides an overview of each model s production history together with essential specification details It is profusely illustrated with 178 colour and 63 b w photographs Land Rover One Ten and Ninety Specification Guide James Taylor,2020-11-23 This book is designed to give guidance on the original ex factory specifications of the coil sprung utility Land Rovers built between 1983 and 1990 Known to Land Rover as stage 2 models they were sold as the Land Rover One Ten Ninety and later One Two Seven James Taylor has taken the first step in undertaking detailed research into the Stage 2 models and putting together all the known facts in one place Topics covered include vehicle identification specification changes in detail options accessories and special equipment conversions and finally promotional material **Motor Cycling and Motoring** ,1987
