Jewish Writers of Latin America Darrell B. Lockhart, 2013-08-21 Jewish writing has only recently begun to be recognized as a major cultural phenomenon in Latin American literature Nevertheless the majority of students and even Latin American literary specialists remain uninformed about this significant body of writing This Dictionary is the first comprehensive bibliographical and critical source book on Latin American Jewish literature It represents the research efforts of 50 scholars from the United States Latin America and Israel who are dedicated to the advancement of Latin American Jewish studies An introduction by the editor is followed by entries on 118 authors that provide both biographical information and a critical summary of works Argentina Brazil and Mexico home to the largest Jewish communities in Latin America are the countries with the greatest representation but there are essays on writers from Venezuela Chile Uruguay Peru Colombia Costa Rica and Cuba **The Routledge Handbook to the Culture and Media of the Americas** Wilfried Raussert, Giselle Liza Anatol, Sebastian Thies, Sarah Corona Berkin, 2020-03-02 Exploring the culture and media of the Americas this handbook places particular emphasis on collective and intertwined experiences and focuses on the transnational or hemispheric dimensions of cultural flows and geocultural imaginaries that shape the literature arts media and other cultural expressions in the Americas The Routledge Handbook to the Culture and Media of the Americas charts the pervasive asymmetrical flows of cultural products and capital and their importance in the development of the Americas The volume offers a comprehensive understanding of how inter American communication is constituted framed and structured and covers the artistic and political dimensions that have shaped literature art and popular culture in the region Forty six chapters cover a range of inter American key concepts and dynamics divided into two parts Literature and Music deals with inter American entanglements of artistic expressions in the Western Hemisphere including music dance literary genres and developments Media and Visual Cultures explores the inter American dimension of media production in the hemisphere including cinema and television photography and art journalism radio digital culture and issues such as freedom of expression and intellectual property This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology political science and cultural postcolonial gender literary globalization and media studies **Interface between Literature and Science** Victoria Carpenter, 2015-05-13 The boundaries of science and literature are permeable they are continuously crossed and illuminated by a variety of narrative forms and their interpretations Changes in our perception of the world are informed in equal measure by scientific and humanistic disciplines This volume treats both literary and scientific texts as products of the human mind therefore abiding by all the rules it creates scientific and humanistic alike The

volume does not propose to replace all literary or discourse analysis with a cross disciplinary science based approach but rather uses this theoretical stance when more conventional means fail to explain or even explore the intricacies of a text It argues that scientific discourse can also be analysed through the prism of literary theories since all texts are governed in varying measure by the unity of contexts that characterize their nature the process of their creation and their place in the cognitive realm of humanity This approach will allow the nature and limitations of scientific research to be questioned while opening up more venues to explore scientific creativity that crosses the subject boundaries of science and humanities Latin American literature offers many examples of the interconnection between literary and scientific discourse Notwithstanding the often explored relationship between Jorge Luis Borges s literary themes and contemporary scientific discoveries a more general question should be asked is the influence of scientific thought a privilege of the select few or is it indeed an all pervading experience in Latin American literary narrative from late modernism to present day This book explores the texts that overtly incorporate scientific content or are structured in such a way that immediately reminds the reader of a scientific phenomenon it will also examine the texts that are presented in such a way that a conventional literary analysis does not help penetrate the many narrative layers that the text comprises The volume offers cross disciplinary readings of such authors as Jorge Luis Borges Gabriel Garc a M rquez Ernesto S bato and Gustavo Sainz to name but a few

Juan Rulfo José Alberto Rubí Barquero,2012-01-25 El caso de Rulfo es el del escritor que tiene mucho que decir no tanto en extensin como en profundidad y que por condicionamientos de su misma biografa se ve obligado a expresarse a travs de personajes sumamente rsticos gente que aparte de ignorante casi no habla Por lo que no le queda ms que infiltrarse si se quiere subrepticamente en el mundo interior de sus personajes y dotarlos de su propia sensibilidad artstica para que puedan apreciar la realidad que los rodea y expresarse sobre esa realidad en consonancia con la visin del mundo que l Rulfo elabora a lo largo de su obra literaria

Writing Across Cultures Angel Rama, 2012-05-29 Angel Rama was one of twentieth century Latin America's most distinguished men of letters Writing across Cultures is his comprehensive analysis of the varied sources of Latin American literature Originally published in 1982 the book links Rama's work on Spanish American modernism with his arguments about the innovative nature of regionalist literature and it foregrounds his thinking about the close relationship between literary movements such as modernism or regionalism and global trends in social and economic development In Writing across Cultures Rama extends the Cuban anthropologist Fernando Ortiz's theory of transculturation far beyond Cuba bringing it to bear on regional cultures across Latin America where new cultural arrangements have been forming among indigenous African and European societies for the better part of five centuries Rama applies this concept to the work of the Peruvian novelist poet and anthropologist Jos Mar a Arguedas whose writing drew on both Spanish and Quechua Peru's two major languages and by extension cultures Rama considered Arguedas's novel Los r os profundos Deep Rivers to be the most accomplished example of narrative transculturation in Latin America Writing across Cultures is the second of Rama's books to be translated into English
