*Carbon Pricing* John Quiggin,David Adamson,Daniel Quiggin,2014-04-25 In 2012 Australia took the major step of introducing a carbon price involving the creation of a system of emissions permits initially issued at a fixed price Carbon Pricing brings together experts instrumental in the development and operation of A **Free Speech after 9/11** Katharine Gelber,2016-04-14 Although there has been a lot written about how counter terrorism laws impact on human rights and civil liberties most of this work has focussed on the most obvious or egregious kinds of human rights abrogation such as extended detention torture and extraordinary rendition Far less has been written about the complex ways in which Western governments have placed new and far reaching limitations on freedom of speech in this context since 9 11 This book compares three liberal democracies the United States the United Kingdom and Australia in particular showing the commonalities and similarities in what has occurred in each country and the changes in the appropriate parameters of freedom of speech in the counter terrorism context since 9 11 achieved both in policy change and the justification for that change In all three countries much speech has been criminalized in ways that were considered anachronistic or inappropriate in comparable policy areas prior to 9 11 This is particularly interesting because other works have suggested

that the United States unique protection of freedom of speech in the First Amendment has prevented speech being limited in that country in ways that have been pursued in others This book shows that this kind of argument misses the detail of the policy change that has occurred and privileges a textual reading over a more comprehensive policy based understanding of the changes that have occurred The author argues that we are now living a new normal for freedom of speech within which restrictions on speech that once would have been considered aberrant overreaching and impermissible are now considered ordinary necessary and justified as long as they occur in the counter terrorism context This change is persistent and it has far reaching implications for the future of this foundational freedom

*Towards Low Carbon Cities in China* Sun Sheng Han, Ray Green, Mark Wang, 2014-09-19 This book explores the relationship between urban form and greenhouse gas emissions in China providing new insights for policy urban planning and management Drawing on the results of a four year multidisciplinary research project the book examines how factors such as urban households access to services and jobs land use mixes and provision of public transport impact on greenhouse gas emissions The authors analyse data from a wide range of sources including 4677 sample households from four major Chinese cities Beijing Shanghai Wuhan and Xi an with diverse locations urban spatial structures and population sizes The book explores residents attitudes to reducing GHG emissions and advances knowledge relating to three environmental scales cross metropolitan intra city and neighbourhood level It also contributes to debates on low carbon policy by revealing the relevance of urban planning parameters at both the macro and micro levels The book will be of interest to scholars in the areas of urban planning urban management environmental sustainability and resource utilisation as well as urban policy makers and planners who are working toward developing low carbon sustainable cities of the future
