**Sustainable Development of Smart Cities Infrastructure (SDSCI-2023) (Volume-2)** H.K. Sharma, Arun Goel, Pankaj Munjal, 2023-06-10. Sustainable development of smart cities infrastructure is of paramount importance and need to be planned, designed, constructed, operated and de-commissioned in a manner that ensures economic, social, environmental and institutional sustainability over the entire infrastructure life cycle. Smart cities infrastructure, however, be cost-effective, disaster resilient, environmentally friendly, conserving natural resources and sustainable, ensuring faster delivery of quality and durable structures which include roads, building, bridges, energy and water infrastructures. Government of India is going to encourage Public Private Partnership (PPP) as an alternate option to build most of the infrastructures which can be useful both for green field as well as brown field smart cities projects. The present book is a collection of contributed research and review papers presented at the National Conference on Sustainable Development of Smart Cities Infrastructure SDSCI 2023 held at National Institute of Technology Kurukshetra in May 2023. The subject matter is grouped into nine sessions which include research articles pertaining to sustainable development of smart cities, urban and rural planning, transportation, built environment and management, sustainable and smart technologies, materials, construction and maintenance, advance modelling, characterization of structures, energy and environment, performance of smart cities infrastructure under extreme loading conditions, green buildings, structural health monitoring and ICT in smart cities, data mining and machine learning for sustainable infrastructure, GIS and remote sensing, future trends and prospects of smart cities, innovative technologies, building energy and efficiency and sobriety and sustainable resilience to natural and man-made disasters and smart materials etc. The book would be a valuable reference for researchers, students, structural designers, site engineers and all related engineers involved in the field of sustainable development of smart cities infrastructure.
