Paper 2 (Structured Questions), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

The Economist: The beauty of diversity is that innovation often comes about by serendipity. As Scott Page observed one day in 1904 at the World Fair in St. Louis, the ice cream vendor ran out of cups. Ernest Hami, a Syrian waffle vendor in the booth next door, rolled up some waffles to make cones, and the rest is history. Filled with data, anecdotes, and optimism, *Them and Us* is an endorsement of cultural differences at a time of acute national introspection. By every measure, from productivity to new perspectives, immigrants bring something beneficial to society. House of Commons - Energy and Climate Change Committee: Local Energy - HC 180 Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, 2013-08-06 Government provides support to households who install small scale renewable energy systems through Feed in Tariffs (FIT) while large scale projects like off shore wind farms will soon be supported through new fixed price Contracts for Difference (CfDs). Medium sized energy projects of between 10-50 Megawatts (MW) currently fall in the gap and do not receive support. Giving communities a stake in local energy projects has the potential to broaden public understanding of energy issues and could also enhance the security and efficiency of the energy system as a whole. This report identifies a number of barriers that can prevent local energy projects getting off the ground. Securing funding and Power Purchase Agreements connecting to the grid and overcoming public opposition can all prove difficult. Obtaining planning permission can be costly and time consuming and the risk of losing tens of thousands of pounds if permission is not granted is a huge obstacle for community groups or small cooperatives. Some form of support mechanism is needed alongside a comprehensive package of measures addressing finance, planning, grid access and advice. The Green Investment Bank could provide seed funding and project development funding for feasibility studies, grid permits etc to reduce some of the risk in getting projects through the planning process. Government needs to do more to encourage local authorities to identify suitable areas for renewable energy development and to develop clear guidance about what is expected from local energy projects. National level planning guidance should be provided on technical issues that hold up planning consent for wind turbines and other low carbon technologies. *2024-25 TGT/PGT Economics Solved Papers* YCT Expert Team, 2024-25 TGT/PGT Economics Solved Papers

Economics 101 for Senators and Representatives Wallace Hoffman, 2022-08-24 The mission of this book is to inform all American citizens how their senators and representatives vote in Washington. Do your senators and your representative fulfill the responsibilities of government in the Constitution and vote in your favor? If that is true, they are your friends. Or do your senators and your representatives violate the Constitution and vote against your best interest? If that is true, they are your enemies. If you vote for and reelect your enemies, they will be your enemies the next two or six years. President Obama's

legacy of deficit spending is characterized by average deficit spending of more than a trillion dollars annually During those eight years every American household went to bed each evening fifty dollars deeper in debt regardless of how hard they worked or whether they spent any money The national debt more than doubled during President Obama's eight years in office Each person's share of debt increased from 30 000 to 70 000 **The econocracy** Joe Earle, Cahal Moran, Zach Ward-Perkins, 2016-11-03 One hundred years ago the idea of the economy didn't exist Now improving the economy has come to be seen as perhaps the most important task facing modern societies Politics and policymaking are conducted in the language of economics and economic logic shapes how political issues are thought about and addressed The result is that the majority of citizens who cannot speak this language are locked out of politics while political decisions are increasingly devolved to experts The econocracy explains how economics came to be seen this way and the damaging consequences It opens up the discipline and demonstrates its inner workings to the wider public so that the task of reclaiming democracy can begin *The People's Money* Paola Subacchi, 2016-11-22 Many of the world's major economies boast dominant international currencies Not so for China Its renminbi has lagged far behind the pound the euro and the dollar in global circulation and for good reason China has long privileged economic policies that have fueled development at the expense of the renminbi's growth and it has become clear that the underpowered currency is threatening China's future The nation's leaders now face the daunting task of strengthening the currency without losing control of the nation's economy or risking total collapse How are they approaching this challenge In *The People's Money* Paola Subacchi introduces readers to China's monetary system mapping its evolution over the past century and particularly its transformation since Deng Xiaoping took power in 1978 Subacchi revisits the policies that fostered the country's economic rise while at the same time purposefully creating a currency of little use beyond China's borders She shows the key to understanding China's economic predicament lies in past and future strategies for the renminbi The financial turbulence following the global crisis of 2008 coupled with China's ambitions as a global creditor and chief economic power has forced the nation to reckon with the limited international circulation of the renminbi Increasing the currency's reach will play a major role in securing China's future *Oswaal CBSE Question Bank Class 12 English Core, Accountancy, Business Studies & Economics (Set of 4 Books) Chapterwise and Topicwise Solved Papers For Board Exams 2025* Oswaal Editorial Board, 2024-02-15 Description of the product 100% Updated Syllabus Fully Solved Board Papers we have got you covered with the latest and 100% updated curriculum Crisp Revision with Topic wise Revision Notes Smart Mind Maps Extensive Practice with 3000 Questions Board Marking Scheme Answers to give you 3000 chances to become a champ Concept Clarity with 1000 Concepts 50 Concept Videos for you to learn the cool way with videos and mind blowing concepts NEP 2020 Compliance with Competency Based Questions for you to be on the cutting edge of the coolest educational trends **Economics of Public and Private Healthcare and Health Insurance in India** Brijesh C.
