Jill Fitzgerald, 2012-12-06 This book reviews the shifting conceptions of writing and revision noting the ways in which views of knowledge and knowing shape teaching and research Fitzgerald as a reading and writing researcher recognizes that how we revise is shaped by how we read and respond to our unfolding texts She argues that how we write and read is ultimately shaped by how we know that is how we seek to make sense of the world How and why do we revise when we write How do we differ in the extent or level of revisions due to differences in our purpose mode of writing perceptions of audience or phase of development of our writing What motivates us to revise a need to clarify our expression to rethink or alter our ideas to influence our reader in certain ways or to fulfill our own purposes These questions have always intrigued composition theorists and researchers however it is only in the past 15 years that researchers have seriously and systematically sought answers to these questions Connections Tammy Boeck, Megan C. Rainey, 2003-08 The middle level book in a three book series Connections helps developing writers make the connections between reading writing and critical thinking Not a traditional workbook Connection takes a top down approach to writing instruction The text moves beyond traditional sentence and paragraph exercises offering a wide variety of activities and opportunities for journaling supplemental readings quick reference guides and unique step by step writing assignments Connections guides developmental writers gently through every stage of the writing process For anyone interesting in developing writing skills The SAGE Handbook of Writing Development Roger Beard, Debra Myhill, Jeni Riley, Martin Nystrand, 2009-07-09 Writing development is currently the focus of substantial international debate because it is the aspect of literacy education that has been least responsive to central government and state reforms Teaching approaches in writing have been slower to change than those in teaching reading and pupil attainment in writing has increased at a much more modest rate than pupil attainment in reading This handbook critically examines research and theoretical issues that impact on writing development from the early years through to adulthood It provides those researching or teaching literacy with one of the most academically authoritative and comprehensive works in the field With expert contributors from across the world the book represents a detailed and valuable overview of a complex area of study **Powerful Literacy in the Montessori Classroom** Susan Zoll, Natasha Feinberg, Laura Saylor, 2023 Teaching reading successfully requires deep knowledge of the reading process and development as well as the implementation of impactful reading instruction and differentiation This book aligns Montessori didactic materials and pedagogy developed over a century ago with current research on reading development Readers will gain a solid overview of the Montessori philosophy and method specifically those related to reading and language development enabling them to support their practice in today's educational context while inspiring the wider field of education The
