Lost But Found:

Lost But Found Lauren Persons, 2020-12 **Lost But Found** A Boy's Story of Grief and Recovery deals with one of the toughest issues a parent may ever have to face explaining to a child that a loved one has died Often to protect them children are left out of the grieving process This book allows adults to travel with a young boy as he works to make sense of his loss and in turn their own I wrote this book to allow children to ask questions and talk about their fears and feelings What I have found is that often children have better insights on these hard life questions than the adults in the room The endearing simplicity and musicality of Lauren's words burst with unspoken emotion leaving room for every child's experience Noah's illustrations portray tender human contact comforting young readers and the families who love them Pegi Deitz Shea award winning children's book author **Lost But Found** is a sweet book with beautiful pictures that tackles grief at a developmental level for a very young child The ambiguous term to lose somebody is demystified as a young boy comes to understand what happened to his father and how their connection lives on Laurie Zelinger PhD ABPP RPT S Board Certified Psychologist and author former Director of New York Association for Play Therapy **Lost But Found** is a brief story that faces a difficult and important topic the loss of a parent The story provides a two pronged approach a caregiver can use as a starting point to approach this delicate topic with a child a sense of perspective and hope for the future and the idea that we as children can find pieces of our parents around us and inside us I appreciate the incentive to reflect on and remember who the lost parent was and how he lives on through his child Isabella Cassina MA TP S CAGS PhD Student Project Manager Trainer and Continuing Education Program Administrator CEPA INA International Academy for Play Therapy studies and PsychoSocial Projects The story of **Lost But Found** is written to help children understand the loss of a loved one It is never easy to talk with a child about this subject and the author provides a tender truthful and believable story It is written from the heart and will serve as a conversation starter in assisting a child's understanding of the grieving process In addition the beautiful illustrations provide the reader a sense that they are embraced and one with the story I highly recommend this book for children and adults Linda Cohen Elementary School Principal At any age understanding death is confusing and complex It is especially so for children In **Lost But Found** author Lauren Persons gently removes some of the mystery around loss and invites children into a comforting conversation around lasting belonging and hope Illustrations by Noah Hrbek enrich this tender and much needed children's book Holli Kenley author of *Power Down Parent Up* and *Pilates For Parenting* Knowing Lauren Persons for over 20 years and happily counting this children's book reflects a genuine heart full of emotion and love If all people faced with difficulties had the courage and the dignity and the grace that Lauren Persons has our world would be a better place for our children to live John Mascia elementary school teacher With simple accessible words and drawings **Lost But Found** perfectly captures the experience of loss and the power of memory and love Amy N Ship From *Loving Healing* Press www.LHPress.com **Lost but Found** Irene Teare, 2016-08-18 **Lost but found** is a story of how I was lost in the first

Song of Redeeming Love John R. Sweney,William James Kirkpatrick,Charles Cardwell McCabe,2025-08-11 Reprint of the original first published in 1882 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Garden State** Daniel Birnbaum,Horst Bredekamp,William Forsythe,Douglas Gordon,Sanford Kwinter,Louise Neri,Philippe Pirotte,Tobias Rehberger,Mark Wigley,2016-10-01 GARDEN STATE Cinematic Space and Choreographic Time is the third issue of the SAC JOURNAL and explores the garden as a utopia wherein time and space may be thought of in architectural terms yet not easily deciphered against architecture s traditions and practices The garden herein is a changeable and vulnerable condition embodying the ephemerality of life which in turn contrasts with the customary expectations of architecture s longevity However Garden State also engages with the contemporary arts specifically video

cinema and ballet and with it time and space open up with new fragile dimensions A choreographic framework emerges which is at once more precise yet loose more responsive yet open than that space architecture normally engenders Choreographed movement differs from that prescribed by the calculable paths so often invoked in the spatial syntax of latter day architecture The garden emerges as a state in all its social glory a realm that we already occupy but perhaps never can own Contributors to this issue include Daniel Birnbaum Horst Bredekamp William Forsythe Hu Fang Douglas Gordon Damjan Jovanovic Sanford Kwinter Philippe Pirotte Louise Neri Tobias Rehberger Julia Voss Mark Wigley and Johan Bettum Also included are the three finalist projects for 2014 SAC AIV Master Thesis Prize *Stories That Transform* Daniel

Pel,2024-07-04 Daniel Pel s years of global experience as communicator and minister have produced a refreshing approach to the words teachings and stories of Jesus It is easy to make the gospel parables complicated but this work is simple yet not simplistic profound without being pretentious and creatively approached while still faithful to Scripture The ramifications of the parables are not just being a good person but dealing with Jesus teachings on lastday events life values relationships mental and spiritual well being and much more For a practical and introductory approach to the parables of Jesus give this book a try Justin Kim editor Adventist Review Daniel Pel allows the parables of Jesus to speak to life s toughest questions about human suffering the meaning of life the character of God and how a person can receive eternal life Though the message of the parables is hidden behind metaphorical language *Stories That Transform* uses the Bible to make the meaning unmistakably clear Young and old will feel convicted challenged and encouraged by the surprising insights gained from these symbolic teachings of Jesus Joe Reeves editor inVerse **The Road to Parnassus: Artist Strategies in Contemporary**

Art Diego Mantoan,2020-10-06 How can one become a successful artist Where should one start a career in the art world What are useful strategies to achieve recognition in the art system Such questions hoard in students minds ever since entering art school and they probably chase every kind of art professional who is at an early career stage The Road to Parnassus tries to understand what makes a good start in today s art world who are influential players in the field and which strategies might apply The swift career ascension of Glasgow artist Douglas Gordon one of today s leading visual artists and of the broader YBA generation that rose into worldwide prominence in the 1990s Damien Hirst and Sarah Lucas among the best known serves as a convenient case to analyse contemporary artist strategies This book takes a multidisciplinary approach spanning from traditional art history to sociology and economics pursuing the reconstruction of the field of forces in art as intended by French sociologist Pierre Bourdieu Compared to previous publications on art system dynamics such as Thompson s *The 12 Million Stuffed Shark* this book offers an enhanced understanding of the factors that allow a young artist to enter the arena of contemporary art The present research should help uncover the art system logic which appears enigmatic to non experts revealing that artists are aware they need to consider global trends beat competitors and meet the demands of dealers collectors curators and museums This book furthers existing contributions on the YBAs for example
