and pedagogical findings and seek solutions that are workable from an organizational standpoint The Routledge Handbook of Heritage Language Education is an ideal resource for researchers and graduate students interested in heritage language education at home or abroad *Journal of the Fine Arts and Musical World* ,1854 Developing Critical Language Pedagogies in Higher Education Adriana Raquel Díaz,2013-08-09 Despite widespread agreement about the need to develop interculturally competent graduates there is a lack of agreement about how this goal may be achieved in practice This is significant as universities around the world particularly in English speaking countries have espoused an interculturally aware vision for their future graduates and turned to language education as an inherently intercultural activity to expose students to a world which is linguistically and culturally different from their own This book focuses on narrowing the gap between the often conflicting theoretical and practical imperatives faced by language teachers in an internationalised higher education context It does so by providing comprehensive conceptual discussions of emerging critical intercultural language pedagogies as well as empirical accounts and case studies from the frontline **The International Handbook of Educational Research in the Asia-Pacific Region** J.P. Keeves,Ryo Watanabe,2013-11-11 The aim of the Handbook is to present readily accessible but scholarly sources of information about educational research in the Asia Pacific region The scale and scope of the Handbook is such that the articles included in it provide substantive contributions to knowledge and understanding of education in the Asia region In so doing the articles present the problems and issues facing education in the region and the findings of research conducted within the region that contribute to the resolution of these problems and issues Moreover since new problems and issues are constantly arising the articles in the Handbook also indicate the likely directions of future developments The different articles within the Handbook seek to conceptualize the problems in each specific content area under review provide an integration of the research conducted within that area the theoretical basis of the research the practical implications of the research and the contribution of the research towards the resolution of the problems identified Thus the articles do not involve the reporting of newly conducted research but rather require a synthesis of the research undertaken in a particular area with reference to the research methods employed and the theoretical frameworks on which the research is based In general the articles do not advocate a single point of view but rather present alternative points of view and comment on the debate and disagreements associated with the conduct and findings of the research Furthermore it should be noted that the Handbook is not concerned with research methodology and only considers the methods employed in inquiry in so far as the particular methods of research contribute to the effective investigation of problems and issues that have arisen in the conduct and provision of education at different levels within the region Alphabetical Arrangement of Main Entries from the Shelf List Union Theological Seminary (New York, N.Y.).
