Global Education Reform Frank Adamson, Bjorn Astrand, Linda Darling-Hammond, 2016-03-02 With contributions from Linda Darling Hammond Michael Fullan Pasi Sahlberg and Martin Carnoy Global Education Reform is an eye opening analysis of national educational reforms and the types of high achieving systems needed to serve all students equitably The collection documents the ideologically and educationally distinctive approaches countries around the world have taken to structuring their education systems Focusing on three pairs of case studies written by internationally acclaimed experts the book provides a powerful analysis of the different ends of an ideological spectrum from strong state investments in public education to market based approaches An introductory chapter offers an overview of the theories guiding both neoliberal reforms such as those implemented in Chile Sweden and the United States with efforts to build strong and equitable public education systems as exemplified by Cuba Finland and Canada The pairs of case studies that follow examine the historical evolution of education within an individual country and compare and contrast national educational outcomes A concluding chapter dissects the educational outcomes of the differing economic and governance approaches as well as the policy implications Journal of the American Veterinary Medical Association American Veterinary Medical Association, 2014 Vols for 1915 49 and 1956 include the Proceedings of the annual meeting of the association

The Robomobility Revolution of Urban Public Transport Sylvie Mira-Bonnardel, Fabio Antonialli, Danielle Attias, 2021-08-31 Over the past two decades society has been witnessing how technological political and societal changes have been transforming individual and collective urban mobility Driven both by newcomers and traditional players by disruptive as well as incremental innovations the main objective now is to enhance mobility and accessibility while reducing vehicle ownership congestion road accidents and pollution in cities This transformation has been mainly enabled by the widespread adoption of internet connected devices e g smartphones and tablets and by the innovative business models technologies and use cases that arose from this rapid digitalization such as peer to peer and two sided markets providing several mobility schemes car sharing car pooling bike sharing free floating cars bikes electric scooter ridesharing and ride hailing either for long distances as well as for urban and micro mobility The book presents in a holistic perspective how this revolution is happening and what are the major cornerstones for the implementation of robomobility It aims at answering several substantial issues such as What is robomobility and what does it imply for the different stakeholders of the public transport ecosystem How do policy makers integrate this innovation and how ready the regulations are How do citizens take part in this transformation What is the level of user acceptance for this new type of mobility What are its environmental impacts What is the economic impact of deploying these shuttles in a local ecosystem Falling for FinTech? Daphnée Papiasse, 2025-08-12 This book presents a unique in depth case study supported by interviews with French experts of France s early embrace and regulatory leadership on FinTech in an uncertain EU post 2008 crisis regulatory context with an extension of the discussion to implications on EU

level FinTech the recent wave of technological innovation in finance is no longer a buzzword but a mainstream development in financial services Although it raises much hope FinTech creates challenges to post global financial crisis regulation which raises an important research question at the heart of this book How do financial regulators manage uncertain technological innovations in the wake of a protracted systemic crisis This book analyzes this critical question for political economy and public policy through a qualitative in depth analysis of FinTech regulation in France a country where the State has promoted financial innovation as a matter of industrial policy within an evolving regulatory space supported generally by market shaping principles
