disciple narrated the description of Siva's dance to Bharata Muni and he is believed to have compiled the Natyasastra the world's first treatise on dramaturgy dance and other performing arts. Scholars believe that the Natyasastra was written over a long period of time between the 2nd century BCE and 2nd century CE with contributions from various sages with its foundation having been laid by Bharata Muni. Convergence between Hindu mythology Natyasastra and Silpasastra was the natural outcome. Karnataka and its temple architecture tradition played a pioneering role in giving an artistic form to this convergence in its temple sculptures. Though this trend may have started earlier during 2nd and 3rd century CE it started to take the center stage from the times of the Badami Chalukyas. Passing through various refinements between 5th and 10th centuries it reached its peak with the Hoysala art. This book traces the history of temple sculpture evolution and development through the centuries by referring to the existing sculptural forms and the canonical literature that developed over time.
