

# Installing Your New Dishwasher

## Leave These Instructions with Owner

### 1 Shipping Base Removal

- a** Open door by lifting latch located under handle pointing top of control panel. Remove necessary package and packing materials.
- b** Carefully lay dishwasher on its back resting on thickness of corner post. Two other corner posts should be placed under the lower edge of the cabinet to raise the shipping base off the floor to facilitate removal of the shipping base.
- c** Remove shipping base and discard. Remove caps from accessory bag. Press caps into holes of frame until securely locked, place dishwasher upright.

### 2 Installation

The dishwasher accessory package contains a faucet adapter, pedestal and center coupler for the faucet coupler. (See Figure B.)

- a** Unscrew and remove existing aerator or aerator from sink faucet.
  - 1** If faucet has paper covered threads, it will not be necessary to use the adapter ring (see below part). Carefully remove the cardboard cap from the aerator assembly, contents are under pressure due to internal spring. Screw aerator assembly onto faucet and tighten securely.
  - 2** If faucet has paper internal threads, install the gasket and adapter ring, tighten securely and install aerator assembly.
  - 3** If no threads are provided, or if threads do not match the faucet for the existing ring, or ceramic cartridge cartridges may be required for the existing ring, or parts catalog or form is required. Adapter ring available that will fit almost all types of faucets.
- b** Move dishwasher into position, remove coupler from receptacle and press down on thumb release. Lift coupler up onto faucet adapter and remove pressure from the thumb release to hold coupler firmly in place. (See Figure C.)
- c** Open hot water faucet fully. Water should not leak from any of the fittings.
- d** Plug drain cord into electrical outlet. (See Electrical Wiring and Grounding Instructions.)

### 3 Checking Installation

- a** Check Dishwasher as follows for proper operation and leaks. Set timer dial to "Normal Wash," "Short," or "Wash & Hold" selection. Close door until it latches. This will start the dishwasher operation.
- b** For microprocessor models: Close door until it latches. Select "Power On," then press START. This will start the dishwasher operation.
- c** Allow dishwasher to fill, wash, and drain. Be sure dishwasher is operating properly. Check operation of the dishwasher according to the user's guide.
- d** Turn faucet off and without pressure on hose by depressing water button on the side of faucet coupler. Depress thumb released lever and remove coupler. (See Figure C.)

#### Electrical Wiring

Connectors are designed for operation on 120V-60Hz approved electrical service, protected by a 15 amp fuse or comparable circuit breaker.

**Warning:** Hose that attaches to a sink spray nozzle can burst if it is installed on the same water line as the dishwasher. If the sink has a spray nozzle attachment, it is recommended that the hose be removed and the hole plugged.

#### Grounding Instructions

**Warning:** This appliance must be grounded to the cover of a multifunctional circuit breaker, grounding will reduce the risk of electric shock by providing a path of least impedance for electric current. This appliance is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriately rated and grounded wall outlet which will fit the plug and will not be removed.

**Warning:** Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service representative if you are in doubt whether the appliance is properly grounded. Do not modify the plug provided with the appliance; if it will not fit the outlet, have a proper outlet installed by a qualified electrician. **DO NOT CUT OR REMOVE THE THIRD GROUNDING PRONG FROM THE POWER CORD PLUG.**

#### For Peak Performance:

- ✓ Use good water heater to deliver 120 - 140°F water. If water is below 140°F, adjust water heating options if available.
- ✓ Use the recommended amount of detergent based on water hardness and soil level.
- ✓ Use a dry, open to improve drying results and minimize water spotting.

- ✓ Load items with soiled surfaces facing the center.
- ✓ Load items so they do not block the upper and lower wash arms or corner wash forces.
- ✓ Do not place glasses over wash arms. This interferes with wash action.
