WISC-V Lawrence G. Weiss, Donald H. Saklofske, James A. Holdnack, Aurelio Prifitera, 2019-01-22 WISC V Clinical Use and Interpretation Second Edition provides practical information for clinicians on the selection of subtest measures along with their proper administration and interpretation Full Scale IQ is identified as important for predicting relevant behaviors and primary index scores for characterizing the child s strengths and weaknesses Classroom indicators of low scores on each of these abilities are identified with suggested interventions accommodations and instructional strategies for low scorers

Coverage includes ethnic differences for the Full Scale IQ and each primary index score along with evidence of the profound influence of parental attitudes and expectations. Several other societal and contextual factors relevant to understanding racial ethnic differences are presented. Two chapters review use of the WISC V for identifying learning disabilities testing of individuals with dyslexia and best practice recommendations to ensure accurate diagnosis and intervention. Concluding chapters describe advances in the Q interactive system platform allowing administration of the WISC V on iPads and other tablets and how clinicians can tailor assessment using select WISC V subtests and features. Authored by the creators of the WISC V. Describes the new subtests revised test structure and test extensions. Advises clinicians on test selection. Provides test result interpretation. Discusses clinical applications of test use.

Breaking the STEM Stereotype Amanda Alzena Sullivan, 2019-10-21. Men continue to outnumber women in numerous technical STEM Science Technology Engineering and Math fields such as engineering and computer science. Prior work demonstrates the importance of introducing girls to STEM content early on before gender stereotypes are ingrained. However many parents and teachers are not sure how to do this in a developmentally appropriate and playful way. *Breaking the STEM Stereotype: Reaching Girls in Childhood* by Dr. Amanda Sullivan, Ph.D., explores the various social, cultural, and psychological reasons behind the persistent gender disparity between men and women in STEM fields. By explaining the powerful role of stereotypes, the media, and experiences with peers and adults during the foundational early childhood years, this book builds the case of early childhood being a critical time in development to reach girls. *Breaking the STEM Stereotype* is set up in three parts. Part 1 provides the current state of the gender divide in each aspect of STEM and explores why early childhood is a critical time to address this divide. Part 2 explores gender identity development and gender stereotypes as well as the influences of the media, advertising, and adult and peer role models on young children. Finally, Part 3 arms readers with the knowledge they need to dispel gender stereotypes in STEM. It provides suggestions on tools, technologies, and kits that can be used with young girls beginning in pre-kindergarten. It provides materials needed to design effective curricula and activities to engage girls with STEM in playful ways that build on their personal interests.

Parliament. House of Commons. Education Committee, 2013 The Government's plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government's proposals
