Kam Wing Chan, Yuan Ren

Memorandum Of Geography PSeptember 2014:

World Economic Outlook, April 2014 International Monetary Fund. Research Dept.,2014-04-08 Global activity has broadly strengthened and is expected to improve further in 2014 15 according to the April 2014 WEO with much of the impetus for growth coming from advanced economies Although downside risks have diminished overall lower than expected inflation poses risks for advanced economies there is increased financial volatility in emerging market economies and increases in the cost of capital will likely dampen investment and weigh on growth Advanced economy policymakers need to avoid a premature withdrawal of monetary accommodation Emerging market economy policymakers must adopt measures to changing fundamentals facilitate external adjustment further monetary policy tightening and carry out structural reforms The report includes a chapter that analyzes the causes of worldwide decreases in real interest rates since the 1980s and concludes that global rates can be expected to rise in the medium term but only moderately Another chapter examines factors behind the fluctuations in emerging market economies growth and concludes that strong growth in China played a key role in buffering the effects of the global financial crisis in these economies **Children of Migrants in China** Kam Wing Chan,Yuan Ren,2020-11-25 Children are precious in China especially as its population ages rapidly The unprecedented fast urbanization and massive internal migration have profoundly changed almost every aspect of society They have impacted the livelihood of children of migrants most Because of the hukou system and related policies China s internal migrants face major obstacles to assimilate into cities But more than that as this book shows these policies have also torn families apart on a scale unseen heretofore More than 100 million children grow up in unstable families and the great majority have suffered from prolonged separation from their parents in the migratory upheaval This book provides an updated analysis of this mega and painful process unfolding at various geographical scales The chapters revolve around the central notion of family togetherness or the lack thereof The book measures dissects and analyses the impacts of migration on children and recommends policies to address major problems from a variety of disciplinary perspectives employing different methodologies The problems faced by the children of migrants remain enormous and it is a looming huge crisis in the making If unaddressed those problems can damage a whole generation with serious consequences The chapters in this book were first published in *Eurasian Geography and Economics* **Life of Permafrost** Pey-Yi Chu,2021-01-04 By tracing the English word permafrost back to its Russian roots this unique intellectual history uncovers the multiple contested meanings of permafrost as a scientific idea and environmental phenomenon *Law and Regulation of Mobile Payment Systems* Joy Malala,2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and

regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya

Mobility and Migration Choices Martin van der Velde, Ton van Naerssen, 2016-03-03 The crossing of national state borders is one of the most discussed issues of contemporary times and it poses many challenges for individual and collective identities This concerns both short distance mobility as well as long distance migration Choosing to move or not across international borders is a complex decision involving both cognitive and emotional processes This book tests the approach that three crucial thresholds need to be crossed before mobility occurs the individual's mindset about migrating the choice of destination and perception of crossing borders to that location and the specific routes and spatial trajectories available to get there Thus both borders and trajectories can act as thresholds to spatial moves The threshold approach with its focus on processes affecting whether when and where to move aims to understand the decision making process in all its dimensions in the hope that this will lead to a better understanding of the ways migrants conceive perceive and undertake their transnational journeys This book examines the three constitutive parts discerned in the cross border mobility decision making process people borders and trajectories and their interrelationships Illustrated by a global range of case studies it demonstrates that the relation between the three is not fixed but flexible and that decision making contains aspects of belonging instability security and volatility affecting their mobility or immobility

The CIA World Factbook 2023-2024 Central Intelligence Agency, 2023-06-20 The ultimate comprehensive guide to official country data and statistics from the world's most sophisticated intelligence gathering organization From Afghanistan to Zimbabwe The CIA World Factbook 2023-2024 offers complete and up to date information on the world's nations This comprehensive guide is packed with data on countries politics populations economics and environment for 2023 and looks ahead to 2024 The CIA World Factbook 2023-2024 includes the following for each country Brand new geopolitical maps Population statistics with details on languages religions literacy rates age structure HIV prevalence and much more Up to date data on military expenditures and capabilities Geography information including climate and natural hazards Details on prominent political figures and parties Contact information for diplomatic missions Facts on transportation trade and communication infrastructure Also included are appendices with useful abbreviations international environmental agreements international organizations and groups terror organizations and more Originally intended for use by government

officials and policymakers as well as the broader intelligence community this is a must have resource for students travelers journalists and anyone with a desire to know more about their world

The European Union and the Black Sea Sinem Akgul Acikmese, Dimitrios Triantaphyllou, 2017-10-02 The idea for this book is derived from the scantiness of academic references on the European Union's policies towards the Black Sea relative to this region's officially stated significance for the EU Even though the EU plays a vital role in Black Sea political agendas the EU's cooperation with the region is not extensively covered by academic discussions and literature This is mostly due to the fact that the EU's focus on foreign affairs is mainly associated with the Balkans as part the current and potential expansion and the Middle East as a direct consequence of the upheaval of the Arab Spring The Black Sea region is crucially important for the EU because of the opportunities and challenges that the region presents both politically and socio economically Contributions to this book mostly focus on specific issues of EU Black Sea cooperation from conflict to the environment to democracy and how these particular relationships are perceived within the region as well as through the lenses of stakeholders such as Russia Turkey and the USA Overall the collection focuses on projecting a more efficient role and a holistic strategy for the EU in its approach towards the Black Sea region testifying to the need for a strong EU presence For this reason the Black Sea area remains the neighbourhood too close to yet still far from the European Union This book was originally published as a special issue of the Journal of Balkan and Near Eastern Studies

Closing Sysco Lachlan MacKinnon, 2020-02-27 Closing Sysco presents a history of deindustrialization and working class resistance in the Cape Breton steel industry between 1945 and 2001 The Sydney Steel Works is at the heart of this story having existed in tandem with Cape Breton's larger coal operations since the early twentieth century The book explores the multifaceted nature of deindustrialization the internal politics of the steelworkers union the successful efforts to nationalize the mill in 1967 the years in transition under public ownership and the confrontations over health safety and environmental degradation in the 1990s and 2000s Closing Sysco moves beyond the moment of closure to trace the cultural historical and political

ramifications of deindustrialization that continue to play out in post industrial Cape Breton Island A significant intervention into the international literature on deindustrialization this study pushes scholarship beyond the bounds of political economy and cultural change to begin tackling issues of bodily health environment and historical memory in post industrial places The experiences of the men and women who were displaced by the decline and closure of Sydney Steel are central to this book Featuring interviews with former steelworkers office employees managers politicians and community activists these one on one conversations reveal both the human cost of industrial closure and the lingering after effects of deindustrialization

Ice and Snow in the Cold War Julia Herzberg,Christian Kehrt,Franziska Torma,2018-10-19 The history of the Cold War has focused overwhelmingly on statecraft and military power an approach that has naturally placed Moscow and Washington center stage Meanwhile regions such as Alaska the polar landscapes and the cold areas of the Soviet periphery have received little attention However such environments were of no small importance during the Cold War in addition to their symbolic significance they also had direct implications for everything from military strategy to natural resource management Through histories of these extremely cold environments this volume makes a novel intervention in Cold War historiography one whose global and transnational approach undermines the simple opposition of East and West
