GEORGE F. KENNAN

An American Life

JOHN LEWIS GADDIS

"Magisterial . . . Bids fair to be as close to the final word as possible
on one of the most important, complex, moving, challenging
and exasperating American public servants."

—Henry Kissinger, *The New York Times Book Review*

George F Kennan An American Life

Daniel W. Drezner

George F Kennan An American Life:

George F. Kennan John Lewis Gaddis, 2012-08-28 Winner of the Pulitzer Prize Winner of the National Book Critics Circle Award Selected by The New York Times Book Review as a Notable Book of the Year Drawing on extensive interviews with George Kennan and exclusive access to his archives an eminent scholar of the Cold War delivers a revelatory biography of its troubled mastermind Winner of the Pulitzer Prize and the National Book Critics Circle Award this extraordinary biography delves into the mind of the brilliant diplomat who shaped U S policy towards the Soviet Union for decades This is a landmark work of history and biography that reveals the vast influence and rich inner landscape of a life that both mirrored and shaped the century it spanned

George F. Kennan John Lewis Gaddis, 2011 The full scope of George Kennan s long life and vast influence is revealed by one of today s most important Cold War scholars Yale historian Gaddis began this magisterial history almost 30 years ago the result is a remarkably revealing view of how this greatest of Cold War strategists came to doubt his strategy and always doubted himself

Kennan Frank Costigliola, 2023-01-17 The diplomat and historian George F Kennan 1904 2005 ranks as one of the most important figures in American foreign policy and one of its most complex Drawing on many previously untapped sources Frank Costigliola s authoritative biography offers a new picture of a man of extraordinary ability and ambition whose idea of containing the Soviet Union helped ignite the Cold War but who spent the next half century trying to extinguish it Always prescient Kennan in the 1990s warned that the eastward expansion of NATO would spur a new cold war with Russia

The Logic of the Cold War Tian-jia Dong, 2018-08-24 The Cold War revealed for the first time in human history the logic of human togetherness which indicated that it was not only necessary for nation states to live together but also possible for them to do so The necessity was because of the inescapably shared vulnerability of mutually assured destruction not only in terms of security but more so in economic well being and political stability The possibility was due to the unipolar world structure sustained by the global governance web of interdependent partnership which worked powerfully between the power agents to ensure the best of all possible world This latent governance system was both hierarchical and dynamic because its power was connective in the sense that power was rooted in one another and the ability to be interdependent by empowering other power agents and sharing vulnerability at the same time was the way of becoming the nucleus on the global web of interdependent partners and hence gaining power in transforming one another connectively and governing the world collectively George Kennan s patience in building up hard and soft powers within individual power agents of the web and Wilson Roosevelt s institutionalization of collective power above each power agents contributed to the construction of the system The Soviet big brotherly governing type was proven a failure

The Genesis of an American Superpower Blaine T. Browne, 2025-08-25 This book is the first comprehensive analysis of a crucial transitional period in American history when the nation abandoned its previous isolationist tradition and accepted the burdens of global leadership in the aftermath of World War II American society culture economy and politics were all transformed in the postwar era as an

abundant society evolved and confronted crucial issues such as coping with the nuclear age and addressing civil rights. During the presidency of Harry Truman the United States undertook the reconstruction of Europe, the occupation of Germany and Japan participated in the judicial prosecution of war criminals and instituted the policies and agencies necessary to confront the expansion of Soviet power as the Cold War took shape. The structure of a modern national security state began to form as the military was reorganized to accommodate the possible use of nuclear weapons and combat newly arisen threats. Alongside analyzing the historical political and economic developments that led to America's dramatic transformation, each chapter also sheds light on key figures of the era including Eleanor Roosevelt, Humphrey Bogart, and Bayard Rustin. *The Genesis of an American Superpower* is a unique resource aimed at general readers and undergraduates, graduates, and scholars alike interested in modern American history and politics. **American Crusades** Jon DePriest, 2018-11-15

American Crusades details evangelical pursuits to unite God's purposes with American empires. It argues that religious motivations contributed heavily to United States governmental policies and built sacred spaces in many attempts to influence American society. These embedded ambitions form the core of Americanism yet somehow remain hidden right in front of our eyes. In the action of caretaking, they advanced their understanding of God's demand on their lives and purposes. Evangelical and theologically conservative Americans linked the sacred and secular, shaping the ethos of the American people. The terminology of religious thinking quickly sacralized concepts like democracy and capitalism in an attempt to control and use them. Once packaged as a sacred space in need of custody, religious leadership sought to fulfill its kingdom responsibility and secure its future. Eventually, a combination of religiously defined secular components coalesced into the term known simply as Americanism. Building on the success of the new nation and supporting the causes of Americanism throughout the world has imprinted a uniquely evangelical construct into the domestic and foreign policy structures of the United States. The shifting landscape of American culture drove evangelicalism into the margins in the 1970s while most scholars think that the decline of religious conservatism in culture meant that secularization controlled foreign policy as well; this is not true. Removed from the whims of domestic politics, Protestant evangelical patterns of action have resisted change in American foreign policy structures. Over time, however, the movement lost its faith distinctives while embedding religious principles in foundations of U.S. foreign policy. This book seeks to produce a reorganized narrative through a critical synthesis to locate white evangelicals' quest to be the foundational voice in America's shaping ideological lineage. *Perspectives on the American Way of War* Thomas A. Marks, Kirklin J. Bateman, 2020-06-29 *Perspectives on the American Way of War* examines salient cases of American experience in irregular warfare focusing upon the post World War II era. This book asks why recent misfires have emerged in irregular warfare from an institutional, professional, and academic context which regularly produces evidence that there is in fact no lack of understanding of both irregular challenges and correct responses. Expert contributors explore the reasoning behind the inability to achieve victory, however defined, and argue that what security professionals have

failed to fully recognize even today is that what is at issue is not warfare suffused with politics but rather the very opposite politics suffused with warfare Perspectives on the American Way of War will be of great interest to scholars of war and conflict studies strategic and military studies insurgency and counterinsurgency and terrorism and counterterrorism The book was originally published as a special issue of Small Wars Insurgencies *The Marshall Plan* Michael Holm, 2016-11-10 Between 1948 and 1951 the Marshall Plan delivered an unprecedented 12.3 billion in U.S. aid to help Western European countries recover from the destruction of the Second World War and forestall Communist influence in that region The Marshall Plan A New Deal for Europe examines the aid program its ideological origins and explores how ideas about an Americanized world order inspired and influenced the Marshall Plan's creation and execution The book provides a much needed re-examination of the Plan enabling students to understand its immediate impact and its political social and cultural legacy Including essential primary documents this concise book will be a key resource for students of America's role in the world at mid-century

On Grand Strategy John Lewis Gaddis, 2019-04-02 The best education in grand strategy available in a single volume a book that should be read by every American leader or would-be leader The Wall Street Journal A master class in strategic thinking distilled from the legendary program the author has co-taught at Yale for decades John Lewis Gaddis the distinguished historian of the Cold War has for almost two decades co-taught grand strategy at Yale University with his colleagues Charles Hill and Paul Kennedy Now in *On Grand Strategy* Gaddis reflects on what he has learned In chapters extending from the ancient world through World War II Gaddis assesses grand strategic theory and practice in Herodotus Thucydides Sun Tzu Octavian Augustus St Augustine Machiavelli Elizabeth I Philip II the American Founding Fathers Clausewitz Tolstoy Lincoln Wilson Franklin D. Roosevelt and Isaiah Berlin *On Grand Strategy* applies the sharp insights and wit readers have come to expect from Gaddis to times places and people he's never written about before For anyone interested in the art of leadership *On Grand Strategy* is in every way a master class

The Ideas Industry Daniel W. Drezner, 2017-03-01 The public intellectual has a long and storied history Previously the public intellectual was always expected to opine on a broad array of topics from foreign policy to economics Yet in recent years a new kind of thinker has supplanted that archetype the thought leader Equipped with one big idea thought leaders focus their energies on TED talks rather than highbrow periodicals In contrast to public intellectuals thought leaders gain fame as single idea merchants Their ideas are often laudable and highly ambitious but they often work through institutions that are closed to the public and less open to criticism In *The Ideas Industry* Daniel W. Drezner explains how this shift happened pointing to the roles of political polarization heightened inequality and eroding trust in authority In contrast to their predecessors today's intellectuals are more likely to enjoy the support of ideologically friendly private funders and be housed in ideologically driven think tanks Increasing inequality is also a key driver of this shift more than ever before contemporary plutocrats fund intellectuals and idea factories that generate arguments that align with their own Finally the erosion of trust in experts has lowered the

barriers of entry in the marketplace of ideas But while there are certainly some downsides to the contemporary ideas industry Drezner argues that it is very good at broadcasting ideas widely and reaching large audiences hungry for new thinking Both fair minded and trenchant The Ideas Industry reshapes our understanding of contemporary public intellectual life in America and the West

Recognizing the pretension ways to get this book **George F Kennan An American Life** is additionally useful. You have remained in right site to begin getting this info. acquire the George F Kennan An American Life member that we come up with the money for here and check out the link.
