Georges Perec Life A Users Manual:

Life: A User's Manual Georges Perec, 2009-07-01 The renowned French author's modern masterpiece one of the great novels of the century on the level of Joyce Proust Mann Kafka and Nabokov Boston Globe Structured around a single moment in time 8 00 p m on June 23 1975 Georges Perec's elaborate jigsaw puzzle of a novel begins in an apartment block in Paris where chapter by chapter room by room a rich cast of characters is revealed in a series of tales that are bizarre unlikely moving funny and sometimes quite ordinary Rolling Stone From the confessions of a racing cyclist to the plans of an avenging murderer from a young ethnographer obsessed with a Sumatran tribe to an eccentric English millionaire who has devised the ultimate pastime *Life A User's Manual* is a symphony of human irony portraying the mixed marriages of fortunes passions and despairs betrayals and bereavements of hundreds of lives in Paris and around the world The apartment block's one hundred rooms are arranged in a magic square and the book as a whole is peppered with a staggering range of literary puzzles and allusions acrostics and problems of chess and logic All are there for the reader to solve Those who have a taste for the unusual for books that create worlds unto themselves will be dazzled by this crazy quilt monument to the imagination The New York Times Book Review **Life, a User's Manual** Georges Perec, 1987 Set in a Paris apartment block this novel describes in minute detail the lives of the inhabitants and the apartments they inhabit at a specific moment in time

and Raymond Queneau all sharing in its light hearted slightly boozy bonhomie the convivial antithesis of the fractious volatile coteries of the early twentieth century avant garde For the last fifty years the Oulipo has undertaken the same simple goal to investigate the potential of constraints in the production of literature that is formal procedures such as anagrams acrostics lipograms texts which exclude a certain letter and other strange and complex devices Yet far from being mere parlour games these methods have been frequently used as part of a passionate though sometimes satirical involvement with the major intellectual currents of the mid twentieth century Structuralism psychoanalysis Surrealism analytic philosophy all come under discussion in the group s meetings and all find their way in the group s exercises in ways that while often ironic are also highly informed Using meeting minutes correspondence and other material from the Oulipo archive at the Bibliotheque nationale de France The Oulipo and Modern Thought shows how the group have used constrained writing as means of puckish engagement with the debates of their peers and how as the broader intellectual landscape altered so too would the group s conception of what constrained writing can achieve

Stranger Than Fiction Edwin Frank, 2024-11-19 One of the Washington Post s 50 Best Nonfiction Books of 2024 A New York Times Book Review Editors Choice Ambitious intelligent and happily unpretentious Louis Menand The New Yorker Convincing idiosyncratic and often felicitous Alexandra Jabobs The New York Times Book Review A legendary editor s reckoning with the twentieth century novel and the urgent messages it sends How can we live differently a young woman urgently demands in Virginia Woolf s novel The Waves It is the 1930s war and death are in the air but her question was asked again and again in the course of a century where things changed fast and changed all the time The century brought world wars revolutions automobiles movies and the internet votes for women death camps The century brought questions Novelists in the twentieth century had a question of their own how can we write a novel as startling and unforeseen as the world we live in Again and again they did transforming the novel as the century remade the world Imagine the history of the twentieth century novel recounted with the urgency and intimacy of a novel That s what Edwin Frank the legendary editor who has run the New York Review Books publishing imprint since its inception does in *Stranger than Fiction* With penetrating insight and originality Frank introduces us to books some famous some little known from the whole course of the century and from around the world Starting with Dostoevsky s *Notes from Underground* of 1864 Frank shows how its twitchy self undermining and never satisfied narrator established a voice that would echo through the coming century He illuminates the political vision of H G Wells s science fiction *Colette* and Andre Gide s subversions of traditional gender roles and Gertrude Stein s untethering of the American sentence He describes the monumental ambition of books such as *Mrs Dalloway* *The Magic Mountain* and *The Man Without Qualities* to rebuild a world of human possibility upon the ruins of World War I and explores how Japan s Natsume S seki and Nigeria s Chinua Achebe broke open European models to reflect their own distinct histories and experience Here too are Vasily Grossman *Anna Banti* and Elsa Morante reckoning in specific ways with the traumas of World War II while later chapters range from Marguerite

Yourcenar and V S Naipaul to Gabriel Garc a Marquez and W G Sebald The story as a whole is one of fearless often reckless exploration as well as unfathomable desolation Throughout we discover the power of the novel to reinvent itself to find a way for itself to live differently Stranger than Fiction offers a new vision of the history and art of the novel and of a dark and dazzling time in whose light and shadow we still stand

The Metainterface Christian Ulrik Andersen,Soren Bro Pold,2018-04-27 How the interface has moved from the PC into cultural platforms as seen in a series of works of net art software art and electronic literature The computer interface is both omnipresent and invisible at once embedded in everyday objects and characterized by hidden exchanges of information between objects The interface has moved from office into culture with devices apps the cloud and data streams as new cultural platforms In The Metainterface Christian Ulrik Andersen and S ren Bro Pold examine the relationships between art and interfaces tracing the interface's disruption of everyday cultural practices They present a new interface paradigm of cloud services smartphones and data capture and examine how particular art forms including net art software art and electronic literature seek to reflect and explore this paradigm Andersen and Pold argue that despite attempts to make the interface disappear into smooth access and smart interaction it gradually resurfaces there is a metainterface to the displaced interface Art can help us see this the interface can be an important outlet for aesthetic critique Andersen and Pold describe the semantic capitalism of a metainterface industry that captures user behavior the metainterface industry's disruption of everyday urban life changing how the city is read inhabited and organized the ways that the material displacement of the cloud affects the experience of the interface and the potential of designing with an awareness of the language and grammar of interfaces

The Architecture of Error Francesca Hughes,2014-11-07 Why the rise of redundant precision in architecture and the accompanying fear of error are key to understanding the discipline's needs anxieties and desires When architects draw even brick walls to six decimal places with software designed to cut lenses it is clear that the logic that once organized relations between precision and material error in construction has unraveled Precision already a promiscuous term seems now to have been uncoupled from its contract with truthfulness Meanwhile error and the always political space of its dissent has reconfigured itself In The Architecture of Error Francesca Hughes argues that behind the architect's acute fetishization of redundant precision lies a special fear of physical error What if we

were to consider the pivotal cultural and technological transformations of modernism to have been driven not so much by the causes its narratives declare she asks as by an unspoken horror of loss of control over error material life and everything that matter stands for Hughes traces the rising intolerance of material vagaries from the removal of ornament to digitalized fabrication that produced the blind rejection of organic materials the proliferation of material testing and the rhetorical obstacles that blighted cybernetics Why is it she asks that the more we cornered physical error the more we feared it Hughes's analysis of redundant precision exposes an architecture of fear whose politics must be called into question Proposing error as a new category for architectural thought Hughes draws on other disciplines and practices that have interrogated precision and failure citing the work of scientists Nancy Cartwright and Evelyn Fox Keller and visual artists Gordon Matta Clark Barbara Hepworth Rachel Whiteread and others These non architect practitioners she argues show that error need not be excluded and precision can be made accountable
