At the Table Katherine Miller, 2023-09-28 When Katherine Miller was first asked to train chefs to be advocates she thought the idea was ludicrous This was a group known for short tempers and tattoos not for saving the world But she quickly learned that chefs and other leaders in the restaurant industry are some of the most powerful forces for change in our troubled food system Chefs are leading hunger relief efforts supporting local farmers fighting food waste confronting racism and sexism in the industry and much more In *At the Table* Miller shares the essential techniques she developed for the James Beard Foundation's Chefs Boot Camp for Policy and Change Readers will learn how to focus their philanthropic efforts pinpoint their audience and develop their argument recruit allies and support action and maybe most importantly grab people's attention in a crowded media landscape Miller also shares the moving stories of chefs who used these skills to create lasting change Tom Colicchio became one of the world's most respected voices on ending hunger Bakers Against Racism recruited more than 3 000 people to participate in their global bake sales Chefs from around the country pushed Congress to provide financial relief to the restaurant industry at the height of the COVID 19 pandemic *At the Table* is filled with inspiration for anyone who has ever wanted to make a difference outside the four walls of their restaurant And most importantly it offers proven methods to become a successful advocate You don't have to be a celebrity chef to change the food system you just need the will and the tools in this unique guide

[The Food Network Recipe](#) Emily L. Newman, Emily Witsell, 2021-04-06 When the Television Food Network launched in 1993 its programming was conceived as educational it would teach people how to cook well with side trips into the economics of food and healthy living Today however the network is primarily known for splashy celebrity chefs and spirited competition shows These new essays explore how the Food Network came to be known for consistently providing comforting programming that offers an escape from reality where the storyline is just as important as the food that is being created It dissects some of the biggest personalities that emerged from the Food Network itself such as Guy Fieri and offers a critical examination of a variety of chefs' feminisms and the complicated nature of success Some writers posit

that the Food Network is creating an engaging important dialogue about modes of instruction and education and others analyze how the Food Network presents locality and place through the sharing of food culture with the viewing public This book will bring together these threads as it explores the rise development and unique adaptability of the Food Network
