Journeys Into The Bright World:

Dematerialized Joseph DiSomma ,Marina DiSomma,2021-11-02 On a bitterly cold night in January of 1979 the heiress to the Sheraton Hotel fortune vanished without a trace This is the true story of Marcia Moore daring author yoga teacher astrologer and occultist She experimented with the psychotropic anesthetic ketamine in the same vein as Timothy Leary s consciousness expanding research with LSD Her interest in psychedelics has only added to the wild theories about Moore s mysterious death in the four decades since Psychics astrologers and armchair sleuths have all had their say Now it s time to set the record straight In 1980 famous true crime author Ann Rule referred to Marcia s disappearance as probably the strangest case I have ever written about One day there may be answers After years of painstaking research this book reveals those answers about a case as multifaceted and intriguing as the woman who perished so tragically This is the story of a bold woman raised well to do and just a stone s throw from Walden Pond who took the road less traveled and paid for it with her life Without Pity Ann Rule,2003-12 A collection of true crime tales selected from the author s Crime Files series is accompanied by three new cases that chronicle the crimes of seemingly ordinary men possessing a twisted obsession with violence and death Sisters of the Extreme Cynthia Palmer,Michael Horowitz,2000-05 Sisters of the Extreme provides us with the eloquent writings of women who experimented with drugs Sometimes their quests brought unexpected rewards sometimes suffering The selections in this anthology show that the psychedelic experiences of women have been anything but stereotypical *The Palgrave Handbook of Philosophy and Psychoactive Drug Use* Rob Lovering,2024-10-14 In this Handbook philosophers from around the world address the metaphysics epistemology and value of psychoactive mind altering drug use In so doing they attempt to answer questions such as What does the fact of drug induced mind altering experiences tell us about natures of the mind free will and God What does it tell us about what and how we can know Are drug induced mind altering experiences valuable morally aesthetically or otherwise Is the acquisition of drug induced mind altering experiences ever immoral Should the acquisition of drug induced mind altering experiences ever be legally prohibited The Handbook gives an overview of the current research and sets the stage for future directions in philosophical thought relating to psychoactive drug use **The Road of Excess** Marcus Boon,2005-03-15 From the antiquity of Homer to yesterday s Naked Lunch writers have found inspiration and readers have lost themselves in a world of the imagination tinged and oftentimes transformed by drugs The age old association of literature and drugs receives its first comprehensive treatment in this far reaching work 700 Conscientiology Experiments Waldo Vieira,2018-08-22 A reference work on conscientiology this treatise with more than 5 000 entries in the bibliography first published in Portuguese in 1994 presents the reader with the bases of the neuroscience conscientiology The author proposes 300 tests for self application dealing with topics of great relevance such as assistance the theory of thosene thought sentiment and energy and the theories of inversion and existential recycling among others The work presents conscientiology as the science applied to the study of

consciousness ego personality in an integral approach with all its vehicles of manifestation bodies previous existences and attributes The content being deepened and presented in a theoretical and practical way so a reader understands the importance of this knowledge to their life The science of conscientiology utilizes the best of the main lines of human knowledge common sense religion philosophy political ideology and conventional science and is based on multidimensional self experience having consciousness as both the instrument and object of research Ketamine Keith G.
