Group learning

Your score reflects your willingness to learn in the group. If you obtain a low score (3 or below) for this question, it indicates that you often learn alone. There can be several reasons for that: you prefer learning alone, you don't feel safe asking for help, or you are not sure what will be the reaction of the person or of the group.

Recommendations:

1. There is always somebody somewhere who will be willing and even happy to help you. Try to find him/her.
2. Even if you are uncertain regarding the reaction, ask for help anyway. This will make the situation certain and you will know how to behave next time and who will be willing and not willing to help you.
3. Even if you prefer learning individually, remember that learning with somebody else can provide you with positive emotions, increase your motivation and help solve your learning problems.
