## La France Et La Question De Syrie:

**La France et la question de Syrie** Vincent Cloarec, 1998      *A Line in the Sand: The Anglo-French Struggle for the Middle East, 1914-1948* James Barr, 2012-01-09 A provocative history helps us to understand why the Arab spring is so important and valuable David Ignatius National Interest In the twentieth century while fighting a common enemy in Europe Britain and France were locked in a clandestine struggle for power in the Middle East From the first agreement to divide the region between them to the birth of Israel *A Line in the Sand* is a gripping narrative of the last gasp of imperialism with tales of unscrupulous double dealing cynical manipulation and all too frequent violence that continues to the present day      *The Routledge Handbook of the History of the Middle East Mandates* Cyrus Schayegh, Andrew Arsan, 2015-06-05 The Routledge Handbook of the History of the Middle East Mandates provides an overview of the social political economic and cultural histories of the Middle East in the decades between the end of the First World War and the late 1940s when Britain and France abandoned their Mandates It also situates the history of the Mandates in their wider imperial international and global contexts incorporating them into broader narratives of the interwar decades In 27 thematically organised chapters the volume looks at various aspects of the Mandates such as The impact of the First World War and the development of a new state system The impact of the League of Nations and international governance Differing historical perspectives on the impact of the Mandates system Techniques and practices of government The political social economic and cultural experiences of the people living in and connected to the Mandates This book provides the reader with a guide to both the history of the Middle East Mandates and their complex relation with the broader structures of imperial and international life It will be a valuable resource for all scholars of this period of Middle Eastern and world history      **The Great War in the Middle East** Robert Johnson, James Kitchen, 2019-01-30 Traditionally in general studies of the First World War the Middle East is an arena of combat that has been portrayed in romanticised terms in stark contrast to the mud blood and presumed futility of the Western Front Battles fought in Egypt Palestine Mesopotamia and Arabia offered a different narrative on the Great War one in which the agency of individual figures was less neutered by heavy artillery As with the historiography of the Western Front which has been the focus of sustained inquiry since the mid 1960s such assumptions about the Middle East have come under revision in the last two decades a reflection of an emerging global turn in the history of the First World War The sideshow theatres of the Great War Africa the Middle East Eastern Europe and the Pacific have come under much greater scrutiny from historians The fifteen chapters in this volume cover a broad range of perspectives on the First World War in the Middle East from strategic planning issues wrestled with by statesmen through to the experience of religious communities trying to survive in war zones The chapter authors look at their specific topics through a global lens relating their areas of research to wider arguments on the history of the First World War      **La France parlementaire (1834-1851): Deuxième série: 1840-1847** Alphonse de Lamartine, 1865      *Mapping, Connectivity, and the Making of*

*European Empires* Luis Lobo-Guerrero, Laura Lo Presti, Filipe dos Reis, 2021-06-29 This volume seeks to collectively explore how maps can be used to understand the making of European empires how the epistemological practices embedded in them can be approached to understand European imperial space making and how maps can be seen as representations of imaginaries of connectivity Rehearsing mapping's past and its multifarious relations with European imperial orders is not merely an historical exercise to contribute to a global history of cartography What binds the several interventions is rather an awareness that looking at a particular moment of the past with composite methodologies and interdisciplinary gazes may harbour potential discoveries on the context embedded relations between mapping connectivity and European empire to which we are not yet attuned By exploring the imaginaries of the world in the mapping of Western modern empires the book also links to the burgeoning literature on the history of international relations and empire The emphasis on empires serves here as an important corrigendum for IR's state centrism and Eurocentrism and contributes to further erode the myth of Westphalia

**Resurrecting the Past** Sarah Griswold, 2025-09-15 In *Resurrecting the Past* Sarah Griswold shows how the Levant became a crucial front in a post 1918 fight over the French past a contingent and contradictory but always hard charging struggle over a forgotten heritage mandate Many scholars clergy pundits politicians and investors perceived the moment Allied forces entered Jerusalem in December 1917 to be a once in a lifetime opportunity to expand French influence evoking the vision of a new colony in the territory a French Levant But what transpired for the French state in the Levant after World War I and why does that ill conceived venture still matter today *Resurrecting the Past* investigates how heritage politics led to a new form of empire a French mandate for Syria and Lebanon and with it a tide of regional and international critique Against such opposition the heritage mandate leaned heavily on spectacle and science generating a sprawling set of sites and objects Ottoman mansions crusader castles Umayyad mosques Roman arches buried synagogues and Sumerian ziggurats As Griswold traces how French heritage efforts cycled through multiple ideal pasts in the Levant from 1918 to 1946 she reveals how each one though grounded in realities also complicated those constructs and the work of French heritage makers *Resurrecting the Past* offers a parable of how efforts in heritage politics aimed to construct a union of ideologies and objects deemed the best past for France's uncertain future but struggled as much as they succeeded Eventually those same heritage politics ironically helped officials justify the end of the French Levant
