Debout Gonzalo Cernadas draws from two of Spinoza's key works on this subject in his Political Treatise and Theological Political Treatise setting out the progress of his ideas how Spinoza conceives of the body how that body can become part of the multitude and how that multitude can form a political society In recovering Spinoza's relevance to contemporary political phenomena Cernadas explains why this early modern thinker has found renewed importance three hundred and fifty years after his death and ultimately how he could even prompt us to reassess democracy as the best form of government

Exploring the Critical Issues of Beauty Gabrielle Simpson, 2020-05-18 Exploring the Critical Issues of Beauty offers a wide range of topics on concepts of Beauty from scholars academics and researchers around the world Political Jurisprudence Martin Loughlin, 2017 Political jurisprudence is the branch of jurisprudence that treats law as an aspect of human experience called the political This is an approach that many contemporary jurists those whose work presupposes the autonomy of legal order tend to suppress In this book Martin Loughlin assesses the contribution made by political jurists and explains its contemporary significance Political jurists maintain that the essential characteristics of modern legal order can only be revealed by considering how political authority is constituted The political is orientated to the fact that people are organized into territorially bounded units within which authoritative governing arrangements have been established but the authority of this way of viewing the world is strengthened only through institution building Law may be an aspect of the political but to perform its authority generating functions effectively it must operate relatively autonomously The political and the legal operate relationally without one being reduced to the other Loughlin introduces the rich literature of political jurisprudence through essays on innovative political jurists such as Hobbes Burke Constant Romano and Schmitt and on such central themes as political right institutionalism constitutional legality and reason of state Building on his earlier books The Idea of Public Law OUP 2003 and Foundations of Public Law OUP 2010 this collection extends his account of this influential strand of European legal thought **The Return of Scepticism** Gianni Paganini, 2013-03-14 This collection of articles the Vercelli conference proceedings places the theme of scepticism within its philosophical tradition It explores the English philosophical thinkers the French context as well as major Italian figures and Spanish culture It pays special attention to the relationships between history of philosophical ideas and the problems rising from the history of sciences medicine physics linguistics historical scholarship in the 17th and the 18th centuries **Jacques Maritain. La sanctification du monde profane** Nicole Roland, 2016-09-02 Jacques Maritain est n en 1882 1973 Durant sa jeunesse pratiquement libre penseur forcen il lutte pour les pauvres et contre l'esclavage du prol tariat Il va se convertir contre toute attente au catholicisme et cherchera imposer la philosophie thomiste en tant que courant de pens e contemporain En 1930 il est au fa te de sa notori t en France en particulier C est la m me poque qu il va s investir dans le domaine de la philosophie politique en int grant son discours un esprit de prospective qui va d clencher une grande m fiance son gard En effet face la mont e des r gimes totalitaires le philosophe va inscrire sa r flexion dans une perspective qui d range Il va notamment exposer la conception chr

tienne de l'ordre politique en définissant les termes d'une politique d'en bas. Il fera connaître son option préférentielle pour les pauvres en invoquant la conscience politique et sociale que devrait avoir tout chrétien. Persuadé d'assister la liquidation d'une époque, il vaudra les modes de désagrégation et d'affermissement de la cité des hommes en réactualisant le concept paulinien de *kataklysmos* (2 Th 2,3-7) en tant qu'obstacle à la désintégration universelle de toutes choses. Il appellera les chrétiens mais galemment tout homme juste à participer à la déification de cette digue contre l'iniquité et la déshumanisation des sociétés contemporaines. C'est un appel à la responsabilité et à l'espérance que Jacques Maritain lance à chaque personne humaine lui rappelant qu'elle peut se sauver ou se perdre pour toujours et que ses actions dans sa relation Dieu ou autrui contribuent à façonner les destins du monde.
