La Foi Qui Guerit:

Saint Hysteria Cristina Mazzoni, 1996 *Saint Hysteria* examines scientific literary and religious texts that share a fascination with the otherness of the female body whether in ecstatic pleasure or in neurotic pain Cristina Mazzoni focuses on material from the late nineteenth and early twentieth centuries mainly in Italy and France Her approach uses the methodologies of cultural studies and feminism but also benefits from the insights of psychoanalytic criticism She asks how the identification of mysticism with hysteria became prevalent and explores the continuing dialogue between a historicizing view of hysteria and a view of hysteria as repressed religious mysticism According to Mazzoni this dialogue is discernible at various levels and in a variety of discourses The medical history of hysteria she maintains is often linked to the religious history of supernatural phenomena and the medical discourse of positivism depends on the religious feminine element that it attempts to repress Similarly she finds a continuity between the literature of naturalism and that of decadence in their representations of the interdependence of neurosis and religion Finally the religious writings of women mystics and the discourses they inspired reveal an unresolved tension between nature and supernature body and soul or psyche which Mazzoni suggests mirrors and complicates the very issues raised by hysterical conversion Among those whose views she considers are the writers Jules and Edmond de Goncourt Gabriele d'Annunzio and Antonio Fogazzaro as well as Graham Greene and Simone Weil the mystics Angela of Foligno Gemma Galgani and Teresa of Avila and the theorists Jean Martin Charcot Cesare Lombroso Jacques Lacan Simone de Beauvoir Julia Kristeva and Luce Irigaray

Mark S. Micale, 2019-01-15 Few diseases have exercised the Western imagination as chronically as hysteria from the wandering womb of ancient Greek medicine to the demonically possessed witch of the Renaissance from the vaporous salong women of Enlightenment Paris through to the celebrated patients of Sigmund Freud with their extravagant erotically charged symptoms In this fascinating and authoritative book Mark Micale surveys the range of past and present readings of hysteria by intellectual historians historians of science and medicine scholars in gender studies art history and literature and psychoanalysts psychiatrists clinical psychologists and neurologists In so doing he explores numerous questions raised by this evergrowing body of literature Why in recent years has the history of hysterical disorders carried such resonance for commentators in the sciences and humanities What can we learn from the textual traditions of hysteria about writing the history of disease in general What is the broader cultural meaning of the new hysteria studies In the second half of the book Micale discusses the many historical cultures of hysteria He reconstructs in detail the past usages of the hysteria concept as a powerful descriptive trope in various nonmedical domains including poetry fiction theater social thought political criticism and the arts His book is a pioneering attempt to write the historical phenomenology of disease in an age preoccupied with health and a prescriptive remedy for writing histories of disease in the future Mark S Micale is Assistant Professor of History at Yale He is the editor of *Beyond the Unconscious* Essays of Henri F. Quand la folie parle Gillian Ni Cheallaigh,Laura Jackson,Siobhan McIlvanney,2014-06-26 Quand la folie parle presents a timely reinvigoration of the complex subject of madness and its literary manifestations This stimulating study authored by a range of young and talented international scholars is of key importance in defining and refining our ongoing endeavours to theorise and analyse the literary representations of the problematics of mental health By including discussions of texts that speak of madness as well as those that speak from madness this volume demonstrates that in fact the non sense of madness achieves a force of expression often more powerful than the usual order of logic Embracing the scientific the religious the medical the psychoanalytic the historical the erotic and of course the properly literary this wide ranging historically informed collection is

particularly significant in its exploration of both the madwoman and the madman and exhibits an inclusiveness which extends to the genres and modes of the texts examined The authors discussed from Nerval and Houellebecq to NDiaye and L provide a refreshingly balanced picture of mental illness presenting madness or depression as a contestatory creative stance against often mind numbing social racial or consumerist conventions while refusing to play down the inevitable difficulties accompanying this isolating condition The dialectic effect referenced in the title of the collection extends not only to the dynamics at work within the volume itself as the different contributions implicitly dialogue with one another but equally to the reader of these essays who is engaged throughout in the debates put forward La foi qui guérit Jean-Martin

Bacon,2017-12-02 This study demonstrates the previously unrecognised significance of discourses of saintliness for constructions of gender and national identity in late nineteenth and early twentieth century Spanish culture a Kathy Bacons innovative approach to sainthood leads to fresh readings of texts by Spains three principal realist novelists La familia de Leon Roch and Nazarin Benito Perez Galdos 1878 and 1895 La Regenta Leopoldo Alas 1884-85 and Dulce dueño Emilia Pardo Bazan 1911 a The author challenges the conventional distinction between anti-clerical and spiritual novels by these writers and questions previous feminist assumptions about the negative role of religion for female identity aSainthood emerges as a key theme through which texts grapple with Spains difficult transition to modernity Lourdes Émile Zola,1903

Kaufman, 2018-09-05 Plastic Madonnas packaged holy tours and biblical theme parks can arouse discomfort laughter and even revulsion in religious believers and nonbelievers alike Scholars too often see the intermingling of religion and commerce as a corruption of true spirituality Suzanne K Kaufman challenges these assumptions in her examination of the Lourdes pilgrimage in late nineteenth century France *Consuming Visions* offers new ways to interpret material forms of worship female piety and modern commercial culture Kaufman argues that the melding of traditional pilgrimage activities with a newly developing mass culture produced fresh expressions of popular faith For the devout women of humble origins who flocked to the shrine this intensely exciting commercialized worship offered unprecedented opportunities to connect with the sacred and express their faith in God New devotional activities at Lourdes transformed the act of pilgrimage the train became a moving chapel and popular entertainments such as wax museums offered vivid recreations of visionary events Using the press and the strategies of a new advertising industry to bring a mass audience to Lourdes Church authorities remade centuries old practices of miraculous healing into a modern public spectacle These innovations made Lourdes one of the most visited holy sites in Catholic Europe Yet mass pilgrimage also created problems The development of Lourdes while making religious practice more democratically accessible touched off fierce conflicts over the rituals and entertainments provided by the shrine These conflicts between believers and secularists played out in press scandals across the European continent By taking the shrine seriously as a site of mass culture Kaufman not only breaks down the opposition between sacred and profane but also deepens our understanding of commercialized religion as a fundamental feature of modernity itself Le pluralisme médical en Afrique. dans les mailles de la mondialisation et du multiculturalisme Jusqu'un passé récent pour des raisons historiques videntes la problématique du pluralisme médical en Afrique semblait se réduire à l'opposition de la médecine moderne ou occidentale et de la médecine dite traditionnelle ou africaine Mais ces dernières décennies avec l'implantation chinoise en Afrique et l'essor des mouvements pentecôtiste et charismatique l'offre thérapeutique s'est diversifiée ainsi que la demande Dans les villes une urbanisation mal maîtrisée dans un contexte général de précarité économique et d'insécurité occasionne la cohabitation des nganga se réclamant de la tradition avec des charlatans des thérapeutes spirituels des prestataires chinois etc tandis que l'institution médicale au succès indéniable mais encore inaccessible beaucoup et souvent inhospitalière alimente l'automédication Dans les campagnes l'abandon des malades leur sort favorise la résurgence des soins basés sur les plantes Les contributeurs de ce colloque sont des historiens des psychiatres des médecins des infirmières des tradipraticiens des anthropologues des sociologues des philosophes etc En rassemblant autour d'une même table et d'un même sujet des compétences aussi diverses on a mis sur la fécondité du croisement des perspectives même si la part belle est faite aux anthropologues et aux sociologues En outre cet ouvrage est un bouquet offert Eric de Rosny journaliste et anthropologue qui scrute le pluralisme médical au Cameroun depuis quelques décennies Ludovic Lado journaliste anthropologue et directeur du colloque est vice-doyen de la Faculté de sciences sociales et de gestion de l'Université catholique d'Afrique centrale basée à Yaoundé

The Doctor-Patient Relationship and the Nineteenth-Century French Novel Sarah Jones, 2025-03-29 The Doctor Patient Relationship and the Nineteenth Century French Novel analyses the representation of the doctor patient relationship in the nineteenth century French novel notably in the words of Balzac Sand Stendhal and Zola It argues that the doctor patient relationship is represented in these novels as a site of interpersonal negotiation wherein the meaning of medical authority embodied experience and the spectre of illness and pain are mediated and reimaged This book highlights how the doctor patient relationship is often idealized by the novel wherein the doctor is characterised as a both dedicated to his patients and local community as well as being a God like master of life death and medical knowledge The volume suggests that the doctor patient encounter is often depicted as a separate although inherently related concept that undermines this idealisation of medical relationships The doctor patient encounter thereby questions the hegemonic power of medical practitioners over their patients by pointing towards how novels depict patients as resisting and even manipulating their doctors The book identifies and explores other important themes within the doctor patient relationship such as the medical gaze regard médical power relationships and the use of embodied metaphor In particular the book highlights how the doctor patient relationship is often a confrontation between scientific knowledge and the experience of gender and disability The book's conceptual framework is derived from the critical medical humanities and the volume revitalises and reframes the doctor patient relationship by considering the intrinsic slippage between idealised relationships and critical encounters The book uses close readings of its corpus to understand how medical practice is debated and undermined concurrently with its

idealisation It places literary works within a new historical context by reading across novels within their medical and scientific context and situates them for the first time in the intellectual context of the critical medical humanities The book points forward to how nineteenth century French novels can reform how the critical medical humanities views the medical relationship and the potential impact on real world patients
