Christophe Dubois journaliste sur TF1 et Marie Christine Tabet journaliste au Journal du Dimanche ont enquêté sur ce sujet qui reste largement tabou. Ils ont interrogé une centaine d'élus et de membres de cabinets ministériels et ont rencontré les hauts magistrats qui ont pour mission de veiller à l'application des textes au demeurant nombreux. Du luxueux appartement de Jacques Chirac à la villa de Julien Dray, des amis fortunés de Ségolène Royal, ceux de Nicolas Sarkozy, des petits travers des uns aux grandes combines des autres, tous ou presque entretiennent des rapports ambiguës avec l'argent. Alors peut-on parler de liaisons dangereuses ? Le financement des campagnes électorales reste aujourd'hui encore souvent aux frontières de l'illégalité sans que celle-ci soit toujours sanctionnée. Et l'enrichissement de la classe politique est une réalité sur laquelle par complaisance ou par familiarité sociale ou mondaine, les instances en charge du sujet ferment les yeux depuis vingt ans. L'argent honteux, l'argent facile et l'argent sale. Un document choc ni moralisateur ni complaisant.

### **How the French Think**

Sudhir Hazareesingh, 2015-09-22. An award winning historian presents an absorbing account of the French mind, shedding light on France's famous tradition of intellectual life. Why are the French such an exceptional nation? Why do they think they are so exceptional? The French take pride in the fact that their history and culture have decisively shaped the values and ideals of the modern world. French ideas are no less distinct in their form while French thought is abstract, stylish and often opaque; it has always been bold and creative and driven by the relentless pursuit of innovation. In "How the French Think", the internationally renowned historian Sudhir Hazareesingh tells the epic and tumultuous story of French intellectual thought from Descartes, Rousseau and Auguste Comte to Sartre, Claude Lévi-Strauss and Derrida. He shows how French thinking has shaped fundamental Western ideas about freedom, rationality and justice and how the French mind-set is intimately connected to their own way of life, in particular to the French tendency towards individualism, their passion for nature, their celebration of their historical heritage and their fascination with death. Hazareesingh explores the French veneration of dissent and skepticism from Voltaire to the Dreyfus Affair and beyond, the obsession with the protection of French language and culture, the rhetorical flair embodied by the philosophes which today's intellectuals still try to recapture, the astonishing influence of French postmodern thinkers including Foucault and Barthes on postwar American education and life, and also the growing French anxiety about a globalized world order under American hegemony. "How the French Think" sweeps aside generalizations and easy stereotypes to offer an incisive and revealing exploration of the French intellectual tradition.

Steeped in a colorful range of sources and written with warmth and humor, this book will appeal to all lovers of France and of European culture.
