Indian National Security and Counter-Insurgency Namrata Goswami, 2014-11-27 This book based on extensive field research examines the Indian state's response to the multiple insurgencies that have occurred since independence in 1947. In reacting to these various insurgencies the Indian state has employed a combined approach of force, dialogue, accommodation of ethnic and minority aspirations and overtime the state has established a tradition of negotiation with armed ethnic groups in order to bolster its legitimacy based on an accommodative posture. While these efforts have succeeded in resolving the Mizo insurgency it has only incited levels of violence with regard to others. Within this backdrop of ongoing Indian counter insurgency this study provides a set of conditions responsible for the groundswell of insurgencies in India and some recommendations to better formulate India's national security policy with regard to its counter insurgency responses. The study focuses on the national institutions responsible for formulating India's national security policy dealing with counter insurgency such as the Prime Minister's Office, the Cabinet Committee on Security, the National Security Council, the Ministry of Home Affairs and the Indian military apparatus. Furthermore it studies how national interests and values influence the formulation of this policy and the overall success and or failure of the policy to deal with armed insurgent movements. Notably the study traces the ideational influence of Kautilya and Gandhi in India's overall response to insurgencies. Multiple cases of armed ethnic insurgencies in Assam, Manipur, Mizoram and Nagaland in the Northeast of India and the ideologically oriented Maoist or Naxalite insurgency affecting the heartland of India are analysed in depth to evaluate the Indian counter insurgency experience. This book will be of much interest to students of counter insurgency, Asian politics, ethnic conflict and security studies in general.

Specialized Assault Units Of The World War I Western Front: Major Christopher J. Ghiz, 2014-08-15 This thesis will use a comparative study of the German Storm trooper battalions and the Canadian trench raiders in order to examine the dynamics of the World War I battlefield, the role of military culture in adaptation in order to acknowledge and act on the requirements of battlefield innovation. The purpose is to determine what key factors contributed to the tactical effectiveness of specialized assault units on the Western Front. The military cultures of these armies comprised the logical and innovative principles that were fundamental in the tactical effectiveness of these elite assault units by making revolutionary developments in force structure, institutional support, personnel selection, decentralized leadership and training on small unit tactics and advanced weaponry. Did these tactics create similar or different effects for each army? What factors did these armies use to organize and employ these assault units? To answer these questions several areas will be examined: 1 force structure, 2 institutional support, 3 personnel selection and 4 training on decentralized leadership, small unit infiltration tactics and advanced weaponry. Both armies had different backgrounds and situations. The German Army's Sturm battalions represented an army wide institutionalization of organization, selection and technique. The Canadian Corps trench raiders were based on the Canadian
