## **Lancien Regime Et La Revolution:**

*The Old Regime and the Revolution, Volume I* Alexis de Tocqueville, 1998-08-15 The Old Regime and the Revolution is Alexis de Tocqueville's great meditation on the origins and meanings of the French Revolution. One of the most profound and influential studies of this pivotal event, it remains a relevant and stimulating discussion of the problem of preserving individual and political freedom in the modern world. Alan Kahan's translation provides a faithful, readable rendering of Tocqueville's last masterpiece and includes notes and variants which reveal Tocqueville's sources and include excerpts from his drafts and revisions. The introduction by France's most eminent scholars of Tocqueville and the French Revolution, François M. Lionio and the late François Furet, provides a brilliant analysis of the work. **Ancien Regime and the Revolution** Alexis de Tocqueville, 2008-05-29 The Ancien Regime and the Revolution is a comparison of revolutionary France and the despotic rule it toppled. Alexis de Tocqueville (1805-59) is an objective observer of both periods, providing a merciless critique of the ancien regime with its venality, oppression, and inequality, yet acknowledging the reforms introduced under Louis XVI and claiming that the post-Revolution state was in many ways as tyrannical as that of the King; its once lofty and egalitarian ideals corrupted and forgotten. Writing in the 1850s, Tocqueville wished to expose the return to despotism he witnessed in his own time under Napoleon III by illuminating the grand but ultimately doomed call to liberty made by the French people in 1789. His eloquent and instructive study raises questions about liberty, nationalism, and justice that remain urgent today. **The Ancien Régime and the Revolution** Alexis de Tocqueville, 2008-05-29 The Ancien

Tocqueville, 1965 **L'ANCIEN RÉGIME ET LA RÉVOLUTION** Alexis de Tocqueville, 2023-08-26 L'Ancien Régime et la Révolution est un ouvrage écrit par Alexis de Tocqueville, un penseur politique, historien et sociologue français du XIX<sup>e</sup> siècle. Voici une synthèse du contenu de l'ouvrage. Dans L'Ancien Régime et la Révolution, Alexis de Tocqueville entreprend une analyse approfondie de la Révolution française et de ses origines, en examinant les aspects sociaux, politiques et culturels qui ont conduit cet événement historique majeur. L'ouvrage a pour ambition de comprendre les forces et les causes qui ont conduit la chute de l'ancien système monarchique et l'émergence de la République. Tocqueville explore les transformations et les tensions sociales qui se sont accumulées au cours de l'Ancien Régime, en mettant l'accent sur les inégalités économiques et sociales, ainsi

que sur les structures politiques rigides de la société. Il examine également les différents facteurs qui ont contribué à la montée en puissance de la Révolution, notamment les idées philosophiques et l'influence des Lumières. L'ouvrage examine en profondeur les conséquences et les effets de la Révolution française sur la société, l'économie et la politique. Tocqueville analyse comment les idées révolutionnaires ont été mises en pratique et comment ils ont façonné la nouvelle réalité sociale et politique. Tocqueville offre une réflexion critique et nuancée sur la Révolution française en soulignant les réussites, les échecs et les contradictions du processus révolutionnaire. Il explore également les implications long terme de la Révolution sur la société française et l'impact sur les institutions politiques et sociales.

L'Ancien régime et la révolution Alexis de Tocqueville, 1856 *The Ancien Regime and the Revolution* Alexis De Tocqueville, 2019-06-17 First published in French in 1856 French diplomat and political scientist Alexis de Tocqueville's *The Old Regime and the French Revolution* is one of the most influential treatises written on the French Revolution. Tocqueville begins by tracing the causes of the French Revolution to the structure of society of France prior to the Revolution, what he terms the Ancien Régime. Tocqueville rejected the notion that the Revolution was a radical transformation of French society. He instead suggests his theory of continuity, specifically that the Revolution was not an attempt to change the nature of society in a truly fundamental way, but to wrest control from the ancient feudal landed aristocracy and replace those outdated institutions with a representative democracy. He makes the important observation that the government of Napoleon was autocratic, strongly centralized, and thus not much different from the Ancien Régime. Tocqueville was a fierce proponent of social institutions based on freedom and equality rather than on the rigid social hierarchy of the feudal social system of the Middle Ages, a system that was increasingly untenable in the age of enlightenment. Tocqueville's treatise remains a timely and important work on social class, revolution, and democracy. This edition is printed on premium acid-free paper and follows the translation of John Bonner.

**L'Ancien Régime et la Révolution** Alexis de Tocqueville, 2025-03-19 *L'Ancien Régime et la Révolution* d'Alexis de Tocqueville publié en 1856 est un ouvrage majeur de philosophie politique qui offre une analyse novatrice de la Révolution française. Loin de la considérer comme une rupture brutale, Tocqueville y voit l'aboutissement d'un long processus de centralisation amorcé sous l'Ancien Régime, travers une ténacité des archives et des chroniques du XVe siècle. L'auteur dévoile les continuités entre l'Ancien Régime et la période révolutionnaire. Il démontre que la quête d'un meilleur gouvernement, moteur de la Révolution, était déjà en germe dans la société française pré-révolutionnaire. Tocqueville s'attache à construire les idées reçues sur cette période charnière de l'histoire de France. Il explore les paradoxes d'une Révolution qui tout en proclamant la liberté a renforcé la centralisation du pouvoir. Son analyse subtile des institutions et des mœurs révèle comment la monarchie absolue a involontairement préparé le terrain son propre renversement. Ce livre s'inscrit dans la lignée des grands essais historiques et offre une réflexion profonde sur les mécanismes du changement social. Il intéressera autant les passionnés d'histoire que les amateurs de philosophie politique, trouvant naturellement sa place parmi les ouvrages de référence sur la Révolution française. *L'Ancien Régime et la Révolution*

*The Old Regime and the Revolution* Alexis De Tocqueville, 2017-10-06 2017 Reprint of 1856 Edition Full facsimile of the original edition not reproduced with Optical Recognition software In this work de Tocqueville analyzes French society before the French Revolution the so called Ancien Régime and investigates the forces that caused the Revolution It is one of the major early historical works on the French Revolution De Tocqueville develops his main theory about the French revolution the theory of continuity in which he states that even though the French tried to dissociate themselves from the past and from the autocratic old regime they eventually reverted to a powerful central government in the form of Napoleon

The Cultural Origins of the French Revolution Roger Chartier, 2015-12-11 Renowned historian Roger Chartier one of the most brilliant and productive of the younger generation of French writers and scholars now at work refashioning the Annales tradition attempts in this book to analyze the causes of the French revolution not simply by investigating its cultural origins but by pinpointing the conditions that made it possible because conceivable Chartier has set himself two important tasks First while acknowledging the seminal contribution of Daniel Mornet's *Les origines intellectuelles de la Révolution française* 1935 he synthesizes the half century of scholarship that has created a sociology of culture for Revolutionary France from education reform through widely circulated printed literature to popular expectations of government and society Chartier goes beyond Mornet's work not by revising that classic text but by raising questions that would not have occurred to its author Chartier's second contribution is to reexamine the conventional wisdom that there is a necessary link between the profound cultural transformation of the eighteenth century generally characterized as the Enlightenment and the abrupt Revolutionary rupture of 1789 The Cultural Origins of the French Revolution is a major work by one of the leading scholars in the field and is likely to set the intellectual agenda for future work on the subject

L'ancien régime et la Révolution Alexis de Tocqueville,1856      **L'Ancien Régime et la révolution haïtienne** Malick Ghachem,2022-01-20 La Révolution haïtienne ne représente pas seulement une rupture radicale avec l'esclavage, elle résulte d'une longue laboration durant toute l'histoire coloniale. Cet ouvrage explore les profondeurs de ce passé colonial fiévreux et montre comment, en pleine révolution, le droit de l'Ancien Régime est invoqué tant par des administrateurs en quête de stabilité que par des gens de couleur libres et par des esclaves exigeant la citoyenneté et la fin des brutalités. De fait, les règles du Code noir pour libérer et châtier les esclaves ont été au centre d'intenses débats sur la menace que le maître autant que l'esclave faisait peser sur le maintien de l'ordre. Ce livre, qui a obtenu aux États-Unis des prix de l'American Historical et de la Caribbean Studies Association, offre une analyse novatrice du passage de l'esclavage à la liberté dans ce pays qui allait devenir Haïti.
