**Ghosts In The Machine** John Auckland, 2018-06-05 Angela is obsessed with death This powerful fixation has driven her to pursue a ruthless career as the CEO of one of the world s largest biotech and pharmaceutical empires and she diverts much of her organisation s research budget towards finding a cure for ageing To secure her legacy Angela creates a prize fund for scientists working on improving human longevity In doing so she sets the human race on a path towards unlocking the cure to ageing But Angela didn t imagine the impact a cure for ageing would have on the population and she failed to ask what the world would look like if we discovered the secret to eternal life *Ghosts in the Machine* explores the human conditions of death and ageing and in doing so responds to a terrifying thought what happens if we actually find a way of living forever

*Everyday Lifestyles and Sustainability* Fabricio Chicca, Brenda Vale, Robert Vale, 2018-04-09 The impact of humanity on the earth overshoots the earth s bio capacity to supply humanity s needs meaning that people are living off earth s capital rather than its income However not all countries are equal and this book explores why apparently similar patterns of daily living can lead to larger and smaller environmental impacts The contributors describe daily life in many different places in the world and then calculate the environmental impact of these

ways of living from the perspective of ecological and carbon footprints This leads to comparison and discussion of what living within the limits of the planet might mean Current footprints for countries are derived from national statistics and these hide the variety of impacts made by individual people and the choices they make in their daily lives This book takes a bottom up approach by calculating the footprints of daily living The purpose is to show that small changes in behaviour now could avoid some very challenging problems in the future Offering a global perspective on the question of sustainable living this book will be of great interest to anyone with a concern for the future as well as students and researchers in environmental studies human geography and development studies *Willing's Press Guide and Advertisers' Directory and Handbook* ,1989
