Spann-Kirk,1992      **Class Warfare** J Martin Rochester,2002-12-01 Class Warfare Besieged Schools Bewildered Parents Betrayed Kids and the Attack on Excellence offers a first hand account of the Great American Education War being waged from coast to coast including the reading wars math wars testing wars and other schoolyard scuffles reported almost daily by the nation s media Martin Rochester takes the reader on a field trip that begins with his own upper middle class suburban school district in St Louis and then moves on to inner city locales and some of the best private schools in showing how pack pedagogy has steamrolled parent resistance in promoting disasters such as whole language fuzzy math multiple intelligences theory teacher as coach the therapeutic classroom and all the other latest fads found in today s schools A college professor Rochester became deeply involved in public education as a result of his children s misadventures in the classroom After several years of trying to improve the status quo as a dogged volunteer he graduated from involved parent to informed critic of a system in which progressive educators continue to assault the techniques of traditional schooling ability grouping grades homework etc allow nonacademic diversions to crowd out academic study and subordinate a commitment to excellence to an obsession with equity As a result of his experiences Rochester concludes that all children are being victimized not only the most gifted but especially average students and those lower achieving kids whose needs are now supposedly driving the entire curriculum Martin Rochester began as a concerned parent and wound up creating a fever chart of what is wrong in our nation s classrooms      **Resources in Education** ,2001-04      **Public and Local Acts of the Legislature of the State of Michigan** Michigan,1992 Includes regular and extra sessions      Research in Education ,1974

**Choosing Students** Wayne Camara,Ernest W. Kimmel,2005-03-23 This volume brings a variety of perspectives to bear on the issue of how higher education institutions can or should choose students during the early part of the 21st century Many of the contributors report on research to develop and validate potential tools to assist those responsible for admission decisions Other contributors however pose broader questions about the nature of selective admissions about institutional responses to the changing demography of those seeking to enter higher education or about the appropriate criteria of success in higher education The volume is particularly timely because the question of how changes in admission tools and processes will affect campus diversity following the recent Supreme Court decision concerning the University of Michigan Diversity is an important concern of all of the contributors and the chapter by Lee Bollinger President at Michigan at the time the court cases were filed is particularly relevant This book brings together the research that underlies a variety of proposed approaches to improving the selection of students Providing support for the integrity of the admissions process and the validity of new tools to help a higher education institution to select a diverse student body this book explores the implications of the assessment component of K 12 school reform for higher education admissions practices The diverse contributions to

this volume reflect the current ferment in educational research and educational practice as institutions of higher education seek to develop a new admissions paradigm for coming decades following the University of Michigan decisions This book is intended for those leaders and professionals who set admission policies and practices in American colleges and graduate and professional schools as well as for those scholars and scientists who research develop and validate tools for use in the process of choosing students in ways that are congruent with an institution s mission values and goals
