 International Curriculum Conference sponsored by the Center for the Study of Mathematics Curriculum CSMC The CSMC is
 one of the National Science Foundation Centers for Learning and Teaching Award No ESI 0333879 The countries China
 Japan Korea and Singapore in alphabetical order which also happens to be the order of their populations have each been in
 the news because of their performance on international tests and or their economic performance and potential They also have
 centralized education ministries that create a single mathematics curriculum framework followed in the entire country In all
 these countries curricula are differentiated for students with different interests usually around Grade 10 or 11 We think the
 reader will agree that the papers are of very high quality befitting the standing of the individuals who were invited but
 particularly notable for our international speakers because in three of these countries English is not the speaker's first
 language Following each paper we have included a short biography of the author's so that the reader can understand the
