You'll Ever Need Jade Bowler, 2021-08-05 We've all been there: a new school year starts and there's 8 months till your exams, that's plenty of time, right? Then there's 6 months, 3 months, 1 month, and oh now there's 2 weeks left and you haven't started studying. What happens next is a panic-induced mayhem of highlighting everything in the textbook without even questioning if it's actually helpful. But I'm here to help you change this. In *The Only Study Guide You'll Ever Need*, I'll cover a range of different topics including: How to get started and pick up that pen; Learning techniques that actually work; The science of memory; The dos and don'ts of timetabling; And combatting fear of failure, perfectionism, exam stress, and so much more. As a fellow student now at university, I definitely don't have a PhD in Exam Etiquette, but this is the book younger me needed. All I wanted was one place that had a variety of tried and tested methods with reassurance from someone who had recently been through the education system. *The Only Study Guide You'll Ever Need* is just that, and I have collected the best techniques and tools I wish I'd known earlier to help you get through your studies and smash your exams.
