Gender at Work in Victorian Culture Martin A. Danahay, 2016-12-05 Martin A Danahay s lucidly argued and accessibly written volume offers a solid introduction to important issues surrounding the definition and division of labor in British society and culture Work Danahay argues was a term rife with ideological contradictions for Victorian males during a period when it was considered synonymous with masculinity Male writers and artists in particular found their labors

troubled by class and gender ideologies that idealized man's work as sweaty muscled labor and tended to feminize intellectual and artistic pursuits Though many romanticized working class labor the fissured representation of the masculine body occasioned by the distinction between manual labor and brain work made it impossible for them to overcome the Victorian class hierarchy of labor Through cultural studies analyses of the novels of Dickens and Gissing the nonfiction prose of Carlyle Ruskin and Morris the poetry of Thomas Hood paintings by Richard Redgrave William Bell Scott and Ford Madox Brown and contemporary photographs including many from the Munby Collection Danahay examines the ideological contradictions in Victorian representations of men at work His book will be a valuable resource for scholars and students of English literature history and gender studies

Silent Sisterhood Patricia Branca, 2013-06-26 This perceptive book studies the Victorian woman in the home and in the family One of the central purposes is to rescue Victorian woman from the realm of myth where her life was spent in frivolous trifles and instead to show how she had a major part to play in the practical management of the home The author makes judicious use of domestic manuals and other material written specifically for middle class women With statistical data to quantify the image as well this book presents a better understanding of what it was like to be a middle class woman in nineteenth century England Looking at the middle class woman's problems as mistress of the house her problems with domestics her problems as mother and her problems as woman we can begin not merely to characterise the middle class woman but to define her as an element of British social history and as a silent but significant agent of change The book was first published in 1975

The Literature of Food Nicola Humble, 2020-02-06 Why are so many literary texts preoccupied with food The Literature of Food explores this question by looking at the continually shifting relationship between two sorts of foods the real and the imagined Focusing particularly on Britain and North America from the early 19th century to the present it covers a wide range of issues including the politics of food food as performance and its intersections with gender class fear and disgust Combining the insights of food studies and literary analysis Nicola Humble considers the multifarious ways in which food both works and plays within texts and the variety of functions ideological mimetic symbolic structural affective which it serves Carefully designed and structured for use on the growing number of literature of food courses it examines the food of modernism post modernism the realist novel and children's literature and asks what happens when we treat cook books as literary texts From food memoirs to the changing role of the servant experimental cook books to the cannibalistic fears in infant picture books The Literature of Food demonstrates that food is always richer and stranger than we think

In the Service of Empire Fae Dussart, 2022-01-27 Despite recent research the 19th century history of domestic service in empire and its wider implications is underexplored This book sheds new light on servants and their masters in the British Empire and in doing so offers new discourses on the colonial home imperial society

identities and colonial culture Using a wide range of source material from private papers to newspaper articles official papers and court records Dussart explores the strategic nature of the relationship the connection between imperialism domesticity and a master servant paradigm that was deployed in different ways by varied actors often neglected in the historical record Positioned outside the family but inside the private place of the home the domestic servant was often the foil against which 19th century contemporaries worked out class race and gender identities across metropole and colony creating those places in the process The role of domestic servants in empire thus lay not only in the labour they undertook but also in the way the servant master relationship constituted ground that helped other power relations to be imagined and contested Dussart explores the domestic service relationship in 19th century Britain and India considering how ideas about servants and their masters and or mistresses spanned imperial space and shaped peoples and places within it *Servants of Culture* Ambika Natarajan, 2023-05-12 In nineteenth century Cisleithanian Austria poor working class women underwent mass migrations from the countryside to urban centers for menial or unskilled labor jobs Through legal provisions on women's work in the Habsburg Empire there was an increase in the policing and surveillance of what was previously a gender neutral career turning it into one dominated by thousands of female rural migrants *Servants of Culture* provides an account of Habsburg servant law since the eighteenth century and uncovers the paternalistic and maternalistic assumptions and anxieties which turned the interest of socio political players in improving poor living and working conditions into practices that created restrictive gender and class hierarchies Through pioneering analysis of the agendas of medical experts police socialists feminists legal reformers and even serial killers this volume puts forth a neglected history of the state of domestic service discourse at the turn of the 19th century and how it shaped and continues to shape the surveillance of women
