Legislature. Assembly,1872 **Calendar of the University of Sydney** University of Sydney,1900 *What is Negation?* Dov M. Gabbay,Heinrich Wansing,2013-06-29 The notion of negation is one of the central logical notions It has been studied since antiquity and has been subjected to thorough investigations in the development of philosophical logic linguistics artificial intelligence and logic programming The properties of negation in combination with those of other logical operations and structural features of the deducibility relation serve as gateways among logical systems Therefore negation plays an important role in selecting logical systems for particular applications At the moment negation is a hot topic and there is an urgent need for a comprehensive account of this logical key concept We therefore have asked leading scholars in various branches of logic to contribute to a volume on What is Negation The result is the present neatly focused collection of research papers bringing together different approaches toward a general characterization of kinds of negation and

classifications thereof The volume is structured into four interrelated thematic parts Part I is centered around the themes of Models Relevance and Impossibility In Chapter 1 Negation Two Points of View Arnon Avron develops two characterizations of negation one semantic the other proof theoretic Interestingly and maybe provokingly under neither of these accounts intuitionistic negation emerges as a genuine negation J Michael Dunn in Chapter 2 A Comparative Study of Various Model theoretic Treatments of Negation A History of Formal Negation surveys a detailed correspondence theoretic classification of various notions of negation in terms of properties of a binary relation interpreted as incompatibility
