Gauteng Department Of Education Mathematics Memo:

South African Schooling: The Enigma of Inequality Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Knowledge, Curriculum and Equity Brian Barrett, Ursula Hoadley, John Morgan, 2017-07-20 In 2008 the first in a series of symposia established a social realist case for knowledge as an alternative to the relativist tendencies of the constructivist post structuralist and postmodernist approaches dominant in the sociology of education The second symposium focused on curriculum and the development of a theoretical language grounded in social realism to talk about issues of knowledge and curriculum Finally the third symposium brought together researchers in a broad range of contexts to build on these ideas and arguments and with a concerted empirical focus bring these social realist ideas and arguments into conversation with data *Knowledge Curriculum and Equity Social Realist Perspectives* contains the work of the third symposium where the strengths and gaps in the social realist approach are identified and where there is

critical recognition of the need to incrementally extend the theories through empirical study Fundamentally the problem that social realism is seeking to address is about understanding the social conditions of knowledge production and exchange as well as its structuring in the curriculum and in pedagogy The central concern is with the on going social reproduction of inequality through schooling and exploring whether and how foregrounding specialised knowledge and its access holds the possibility for interrupting it This book consists of 13 chapters by different authors working in Oceania Asia Europe Africa and North America From very different vantage points the authors focus their theoretical and empirical sights on the assumptions about knowledge that underpin educational processes and the pursuit of more equitable schooling for all

South African Language Rights Monitor 2011 / Suid-Afrikaanse Taalregtemonitor 2011 Johan Lubbe,Theodorus du Plessis,2016-01-05 The SALRM 2011 provides a rich source of information on a range of language related subjects A prominent issue remains the changing of street and place names including the Pretoria Tshwane and Louis Trichardt Makhado sagas Language in education remains a thorny issue as medium of instruction at school and tertiary level and the proposal that passing an African language should be a requirement in order to obtain a tertiary degree in South Africa In terms of language legislation the draft version of the National Language Act was proposed The language of record in courts also received attention in the media Interpellations, Questions and Replies of the National Assembly South Africa. Parliament (1994-). National Assembly,1997 **Debates of the National Assembly (Hansard)** South Africa. Parliament (1994-). National Assembly,1997 Resources in Education ,1999-04 Annual Report South Africa. Department of Basic Education,2016 *Primary Education in Crisis* Brahm Fleisch,2008 In the past decade the national preoccupation has been on the crisis in secondary schools Lurking behind the intractable problem of low pass rates the dysfunctional schools and the small number of higher grade mathematics and science graduates is the calamity in primary education Drawing on the work of researchers in a range of fields including psychology sociology anthropology linguistics economics the health sciences and mathematics education this book documents the depth and scope of the primary education crisis and provides a comprehensive and rigorous explanation of its causes Primary education in crisis pulls together the wealth of research on health poverty resources language and teaching as factors in academic achievement in reading writing and mathematics At the centre of the book is an analysis of the published studies that systematically document what teachers teach and fail to teach and why it is that teaching is at the heart of the crisis in primary education The author suggests that there are no quick fixes but only hard choices and that for reform to succeed it must be evidence based Annual Report Armaments Corporation of South Africa Ltd,2016 *Managing Educational Change* Brahm Fleisch,2002
