

The Importance of Warehouse Safety Training

Warehouses, often full of moving machinery carrying heavy loads, are inherently one of the most dangerous places to work.

Warehouse working environments have plenty of potential hazards, such as moving forklifts, lifting loaded pallets, slips and falls and more. To reduce the level of risk, adequate warehouse safety training is essential. **Safety training is an ongoing process. Skills always need upgrading and reassessing.**

Warehouse accidents can affect the worker who has had the accident, other workers of the company, company reputation, level of productivity and the owner. Therefore, supervisors and workers must be keenly aware of their surroundings and follow appropriate warehouse safety procedures.

General Warehouse Manual

Thomas Griffiths
