Genting Annual Report 2007:

Minsky, Crisis and Development D. Tavasci, J. Toporowski, 2010-09-08 This book provides a systematic account of financial crisis in the developing world by exploring how Minsky's theory may be extended to countries at early stages of financial development going beyond the parameters of the established emerging market crisis literature **Trying to follow the money** Michael B. Dwyer, 2015-04-06 Half a decade into the global land rush land intensive investment throughout Southeast Asia continues to confront social and environmental issues such as land conflict and improperly regulated forest conversion This study uses publicly available financial and spatial data to examine the geography of land intensive investment in Southeast Asia and to identify the limits imposed by problems with data availability It focuses on three regions where land has been widely seen to be available for new investment Indonesia's outer islands the development triangle where Cambodia Laos and Vietnam meet and the Golden Quadrangle region which comprises the borderlands of northeastern Myanmar northwestern Laos southern and western Yunnan and northern Thailand These areas are examined in three chapter case studies each of which uses the currently available spatial data to evaluate trade and investment dynamics in the area including processes that are used to make land available and combines these where possible with specially commissioned research on investment in key commodity crops to evaluate transparency with respect to financing In a global and regional context where regulatory change is increasingly being driven by transnational concerns by consumers retailers and investors information systems capable of tracking particular investments spatial targets and thus their likelihood of various social and environmental outcomes is increasingly desirable This study describes current capabilities and challenges to realizing a more complete picture of investors' roles in the development of available land **Southeast Asian Personalities of Chinese Descent** Leo Suryadinata, 2012 This is a bold project recording the lives of a particular group of Southeast Asians Most of the people whose biographies are included here have settled down in the ten countries that constitute the region Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry There are also those who were born in China or elsewhere who came here to work and do business including seeking help from others who have ethnic Chinese connections With the political and economic conditions of the region in a great state of flux for the past two centuries it is impossible to find consistency in the naming process Confucius had stressed that correct names make for the best relationships In this case Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have in one way or another made their homes in or made some difference to Southeast Asia I believe that when he and his colleagues selected the biographies to be included here they have taken a big step towards the rectification of identities for many leading personalities In so doing he has done us all a great service Professor Wang Gungwu National University of Singapore Annual Report United States. Congressional-Executive Commission on China, 2008 **Mergent International News Reports**, 2008-05 *The Haze*

Problem in Southeast Asia Helena Varkkey, 2015-07-16 Despite the efforts of Southeast Asian governments and of ASEAN transboundary haze continues to be a major environmental problem in Southeast Asia This book demonstrates that the issue is complex and explains why efforts to solve the problem in purely political terms are ineffective and likely to continue to be ineffective The book shows how state led state incentivised agribusiness development lies at the heart of the problem leading to a large rise in palm oil production with extensive clearing of forests leading to deliberate or accidental fires and the resulting haze Moreover although the forest clearing is occurring in Indonesia many of the companies involved are Malaysian and Singaporean and further many of these companies have close relationships with the politicians and officials responsible for addressing the problem and who thereby have a conflict of interest The author concludes by discussing the huge difficulties involved in overturning this system of patronage politics

Minerals Yearbook, 2006 *A Case for Shareholders' Fiduciary Duties in Common Law Asia* Ernest Lim, 2019-08-22 Reconceptualises the general meeting controlling shareholders and institutional investors as fiduciaries in four leading common law Asian jurisdictions
