scholars geographers and legal scholars *The Knowledge Gap* Natalie Wexler,2019-08-06 Essential reading for teachers education administrators and policymakers alike STARRED Library Journal The untold story of the root cause of America s education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country s frustrating lack of progress when it comes to providing every child with a quality education The problem wasn t one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum s intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff s *The Prize* and Dana Goldstein s *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn t just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention

Between Church and State James W. Fraser,2016-09-15 A fully updated second edition of this essential look at the continuing tensions between religion and American public schools Today the ongoing controversy about the place or lack of place of religion in public schools is a burning issue in the United States Prayer at football games creationism in the classroom the teaching of religion and morals and public funding for private religious schools are just a few of the subjects over which people are skirmishing In *Between Church and State* historian and pastor James W Fraser shows that these battles have been going on for as long as there have been public schools and argues there has never been any consensus about what the separation of church and state means for American society or about the proper relationship between religion and public education Looking at the difficult question of how private issues of faith can be reconciled with the very public nature of schooling Fraser s classic book paints a complex picture of how a multicultural society struggles to take the deep commitments of people of faith into account including people of many different faiths and no faith In this fully updated second edition Fraser tackles the culture wars adding fresh material on current battles over public funding for private religious schools He also addresses the development of the long simmering evolution creationism debate and explores the tensions surrounding a discussion of religion and the accommodation of an increasingly religiously diverse American student body *Between Church and State* includes new scholarship on the role of Roger Williams and William Penn in developing early American conceptions of religious liberty It traces the modern expansion of Catholic parochial schools and closely examines the passage of the First Amendment changes in American Indian tribal education the place of religion in Booker T Washington and W E B Du Bois s debates about African American schooling and the rapid

Civic Education Michael Learn, 2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public schools as a dedicated field social studies evolved into a blending of history social sciences and civic education Social studies evolution never resolved the differences between the three with each discipline striving to control

the narrative Instead of creating a unified field the disciplines devalued social studies and thus any discipline associated with it The Rise and Fall of Civic Education The Battle for Social Studies in a Shifting Historical Landscape investigates the changing definitions and purposes ascribed to social studies in the United States through time This result is viewed through the rising tensions from culture wars as America s divisive politics fight to control the narrative of the disciplines within social studies

Ghosts of the Somme Jonathan Evershed, 2018-05-30 Once assumed to be a driver or even cause of conflict commemoration during Ireland s Decade of Centenaries came to occupy a central place in peacebuilding efforts The inclusive and cross communal reorientation of commemoration particularly of the First World War has been widely heralded as signifying new forms of reconciliation and a greater maturity in relationships between Ireland and the UK and between Unionists and Nationalists in Northern Ireland In this study Jonathan Evershed interrogates the particular and implicitly political claims about the nature of history memory and commemoration that define and sustain these assertions and explores some of the hidden and countervailing transcripts that underwrite and disrupt them Drawing on two years of ethnographic fieldwork conducted in Belfast Evershed explores Ulster Loyalist commemoration of the Battle of the Somme its conflicted politics and its confrontation with official commemorative discourse and practice during the Decade of Centenaries He investigates how and why the myriad social political cultural and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each other He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation
