Environment and Children Christopher Day, Anita Midbjer, 2007 How does the built environment affect children their health their behaviour education and development To support them what do we need to consider and what do we need to do Can our surroundings foster environmental and social awareness and responsibility Based on Christopher Day s experiences designing schools and early childhood centres in the United States and Britain this groundbreaking book sets out to answer these questions and to offer solutions Children all too often find themselves living in alien surroundings designed with the needs of adults in mind cut off not just from the natural environment but also childhood itself Society s reaction to cocoon children from the outside world or to resort to drugs to control behaviour fails to address the fundamental causes of problems which lie in the environment not the children themselves One of the world s leading thinkers on the impact of buildings on people Christopher Day s insights offer new light on one of the most important issues for today s society My Life in Focus Gianni Bozzacchi, 2017-01-10 When Gianni Bozzacchi accepted an assignment as a photographer on the set of *The Comedians* 1967 he didn t know that his life was about to change forever His ability to capture the beauty of candid moments drew the attention of the film s star Elizabeth Taylor and prompted her to hire him as her personal photographer Not only did he go on to enjoy a jet set life as her friend and confidant preserving unguarded moments between the violet eyed beauty and Richard Burton as they traveled the world but Bozzacchi also became an internationally renowned photographer and shot some of the biggest celebrities of the 1960s and 1970s In *My Life in Focus* Bozzacchi traces his journey from humble beginnings to the sphere of the rich and famous As a child he cultivated his skills by working with his father a photographer for the Italian government Following in his parent s footsteps was not something Bozzacchi had foreseen for his future but his passion for taking pictures and his ability to put his subjects at ease enabled him to capture stunning images of some of the greatest stars of the twentieth century including Audrey Hepburn Steve McQueen Raquel Welch Mia Farrow Clint Eastwood and the royal family of Monaco Beautifully illustrated with many of the photographer s most iconic images this lively memoir reveals private moments in the Taylor Burton love story and provides an invaluable behind the scenes look at the business of filmmaking and the perils of celebrity *European Cinema after the Wall* Leen

Engelen, Kris Van Heuckelom, 2013-11-21 Since the fall of the Berlin Wall in 1989 transnational European cinema has risen not only in terms of production but also in terms of a growing focus on multiethnic themes within the European context This shift from national to trans European filmmaking has been profoundly influenced by such historical developments as the collapse of the Iron Curtain and the subsequent ongoing enlargement of the European Union In European Cinema after the Wall Screening East West Mobility Leen Engelen and Kris Van Heuckelom have brought together essays that critically examine representations of post 1989 migration from the former Eastern Bloc to Western Europe uncovering an array of common tropes and narrative devices that characterize the influences and portrayals of immigration Featuring essays by contributors from backgrounds as divergent as film studies Slavic and Russian studies comparative literature sociology contemporary history and communication and media studies this volume will appeal to scholars of film European history and those interested in the impact of migration diaspora and the global flow of cinematic culture CLARITY Lyn

publications to date have focused on monolingual classrooms Language teacher educators have a responsibility to prepare teachers to be culturally responsive and flexible so they can adapt to the range of settings and variety of learners they will encounter in their careers while also bravely questioning the assumptions they are encountering about multilingual literacy development and instruction The Handbook of Research on Cultivating Literacy in Diverse and Multilingual Classrooms is an essential scholarly publication that explores the multifaceted nature of literacy development across the lifespan in a range of multilingual contexts Recognizing that literacy instruction in contemporary language classrooms serving diverse student populations must go beyond developing reading and writing abilities this book sets out to explore a wide range of literacy dimensions It offers unique perspectives through a critical reflection on issues related to power ownership identity and the social construction of literacy in multilingual societies As a resource for use in language teacher preparation programs globally this book will provide a range of theoretical and practical perspectives while creating space for pre and in service teachers to grapple with the ideas in light of their respective contexts The book will also provide valuable insights to instructional designers curriculum developers linguists professionals academicians administrators researchers and students
