WEEK ONE

TOPIC: NON-CENTRALIZED STATES IN PRE-COLONIAL NIGERIA

1. Meaning of Non-centralized states: non-centralized states were independent ethnic groups that had no central administration which means that they had no powerful ruler. Hence, in non-centralized states, power was distributed among many people. The power in this context means the overall activities, which includes planning and decision-making.
2. Characteristics of Non-Centralized states
 - i. Numerous governing bodies: There are many governing bodies, thus laws are made and enforced only if the majority voted in favour of that particular law.
 - ii. Decentralization of power: In a non-centralized state, all the power is not centered on a single individual or central government. The power resides in the hands of selected group of elders or chiefs.
 - iii. Government is usually more effective and efficient; responsive and responsible.

- iv. There was absence of law courts and prisons, oracle was usually consulted in resolution of certain disputes.
- v. Religious activities played a great role in these states.
3. Examples of Non-centralized states in pre-colonial Nigeria
 - i. Igbo: the pre-colonial system of administration in Igbo land was centered inside villages. Politically, each village existed on its own, with a council of elders at the helm of administration. The head of each council of elders was called the Okpara, he was the wisest and most senior person. The council of elders made and enforce laws and punish law breakers. Though the Okpara could summon meetings and judge but he wasn't powerful and could not take decision without the consent of all the families in the village.
